

Birla Barbed Wire

Birla Barbed Wire is a high-strength fencing wire designed for superior durability and long-lasting performance. Manufactured using premium-grade steel, this barbed wire is widely used for agricultural fencing, industrial security, boundary protection, and residential enclosures. The sharp and evenly spaced barbs provide enhanced security while maintaining excellent tensile strength and resistance against rust and corrosion. This fencing solution is suitable for farms, warehouses, factories, construction sites, and restricted areas where strong perimeter protection is required. Birla Barbed Wire is easy to install, cost-effective, and built to withstand harsh weather conditions, ensuring reliable performance for extended periods. Its galvanized finish improves durability and minimizes maintenance needs, making it an ideal choice for secure fencing applications.

Feature	Details
Material	High Quality Steel
Application	Industrial, Agricultural & Residential Fencing
Surface Finish	Galvanized
Durability	High
Corrosion Resistance	Yes
Usage	Boundary & Security Protection
