COLORED TEMPLE HAIR

NATURAL HAIR CLIP IN EXTENSIONS

About Us

SalonLabs specializes in manufacturing and exporting Indian Human Hair Extensions. The company effectively serves all over the world. We have a decade of experience in supplying top-quality natural Indian Hair at wholesale prices. We source our hair from South Indian Temples. There is a thorough grading and picking of best quality raw hair to process our Hair Extensions. Our hair extensions have cuticles that are intact, and all our applications are made with the same quality of hair. Therefore, our extensions will have no tangling or shedding. We do not apply any coats so they look natural and stay that way all the while. Our hair extensions last longer with good care and are reusable multiple times.

We manufacture all types of hair extensions including Machine Weft Hair, Clip in / Clip on Extensions, Micro Rings, Keratin Tips or Fusions. Also, all kinds of Wigs like Full Lace Wigs, Remy Hair Extensions, Lace Front Based Wigs and Cap Based Wigs. At SalonLabs, we offer complete customization to small and large clients including labeling etc. This helps clients acquire or sell highest quality hair extensions for end uses.

SalonLabs manufactures all its Indian Hair Extensions in its own facility at Bangalore. Also, the company has Indian Hair sourcing and Indian Hair sorting centers in the outskirts.
