PISTOL BLOCK MOULD

About Us

Aimed to fulfill all the desired needs of our valued customers in the minimum lead time, we, Royal Tile Machines, are a quality conscious organization. We are an ISO 9001:2008 and QMS-60602 certified firm. Incepted in the year 2000, we have grown by leaps and bounds in the domain of tile making machinery. With our unprecedented efforts and strong commitment, we have developed our strong presence in the international market. Today, we are well known as a prominent manufacturer, exporter and supplier of the industry. Our broad array of machines includes Pan Mixer, Paver Block Machine, Vibrator (Tile Making Machine), Vibrator & Compression Paver's Block Machine, Colour Mixer (Double Cone Type Model No. R-05), etc.

All our machines are carefully designed and manufactured under the supervision of expert engineers. They also ensure that the whole product array is at par with industrial standards and norms. In addition to this, we lay strong emphasis on continual up-gradation of technologies and techniques so as to ascertain an updated range of machines. We have also developed a wide distribution network through which we are able to cater to the needs of large number of clients in a timeliness manner.

Key Facts

Nature of Business	Manufacturer
Primary Competitive Advantages	hollow brick machine,paver block making machine,
No of Staff	25
Year of Establishment	2003
OEM Service Provided	No
ProductRange	hollow brick machine,paver block making machine,

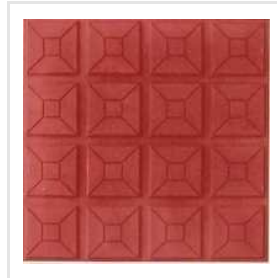

Our Products
