K-Life®

Scan Measuring	Fever Alarm	Quiet	Ear	Forehead	Green yellow Red Three Colour Indication

IR-101 Non-Contact Infrared Thermometer

Features:

➤ Non-Contact detection
➤ Body or object temperature detection
➤ Displays temperature reading in seconds
➤ Sound can be turned on/off
➤ Easily switches between °C and °F
➤ Gives an auditory and visual Warring
➤ Waring (three colours LCD display)
  20 readings memory recall BPM and latex free

Specifications:

Power Supply Mode	Internal power supply
Operating Voltage	DC 3V
Battery Model	AAA x 2
Display	LCD
Measure time	About 1 second
Measuring Distance	½"
Measuring Range	Forehead: 34.9°C–42.2°C
	Object: 0.0°C–100.0°C
Accuracy	±0.4°F/±0.2°C from 94.8°F to 108.0°F
Resolution	0.1°C (0.1°F)
Memory	20 temperature readings
Low-battery Alert	when the power voltage is lower than 2.5 V±0.1V.
Automatic Power-off	Automatically powers off in 10 ± 1 seconds.
Operating Environment	Temperature: 10°C–40°C
	Humidity: 15%–95% RH, non-condensing
Storage and Transportation	Temperature: -20°C to 55°C
	Humidity:0- 95% RH, non-condensing
