

150 Amp Enclosed Variacs, 230V Automatic Voltage Stabilizer, AC Automatic Voltage Stabilizer, Air Cool Servo Voltage Stabilizer, Auto Variable Transformer Variac, Constant Voltage Transformer (CVT), Covered Variac Transformer, Digital Home UPS, Digital Power Inverter, Dimmer Variac Transformer, Distribution Transformer, Isolation Transformer, Motorised Variac, Oil Cooled Digital Servo Stabilizer, Online UPS with In-built Isolation Transformer, etc.

THREE PHASE AIR COOLED DIGITAL SERVO STABILIZER

OIL COOLED DIGITAL SERVO STABILIZER

AIR COOL SERVO VOLTAGE STABILIZER

About Us

We are pleased to introduce ourselves as a technology driven organization with years of experience in offering sophisticated range of Power Conditioning Equipment. We, Servo Technologies System, are an ISO 9001: 2008 Certified organization and integrated power solution provider with the long standing reputation for quality, integrity, reliability, and customer-satisfaction that are mostly exhibited by our product range and prompt services. Our vast line of products encompasses Servo Stabilizer, Servo Voltage Stabilizers, Isolation Transformer, Automatic Voltage Stabilizer, Rolling Contact Type Voltage Controller, Variable Auto Transformer Variac, Uninterruptible Power Supply (UPS), Distribution Transformer, Servo Motor, Motorized Dimmer, Power Factor Control Panel and many more. The products offered by us are hallmark of durability and outstanding performance. Overwhelming response from the customers and acceptance of our products in the market prove the quality of our products. We are acclaimed in the global market as one of the prominent Manufacturers, Exporters, and Suppliers.

Our range of power conditioning products and services helps in reducing the blow of today's harsh power supply and electrical environment. The products offered by us are tested in compliance with ISO 9815-94 standards. Our inverters and UPS have sleek designs, based on advanced MOSFETPWM and IGBT technologies with microprocessor controlled LED & LCD digital display system. We take immense pride in our ability to garner 100% customer satisfaction. With the pyramidal corporate structure, we make sure to identify the requirements of the clients and serve them accordingly. Paying attention to the minutest details of the clients' specifications, we design and develop products that are efficient and render high performance without requiring any maintenance work. Herein, we also manage to assure that all the products served by us meet the international parameters of quality and other related norms. We also have R&D department that has obtained recognition from Department of Scientific and Industrial Research (DSIR), government of India.

Key Facts

Year of Establishment	1990
OEM Service Provided	No

Our Products

Online UPS With In-Built Isolation

Motorised Variac

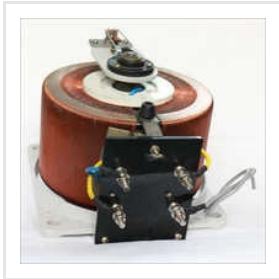

Digital Power Inverter

Open Variac Auto Transformer

Dimmer Variac Transformer

150 Amp Enclosed Variacs

Rolling Contact Type Voltage Controller

Auto Variable Transformer Variac

AC Automatic Voltage Stabilizer

Digital Home UPS

Single Phase Motorized Variac

Covered Variac Transformer

Open Transformer Variac

Single Phase Digital Servo Voltage

Three Phase Oil Cooled Servo Voltage

Online Uninterruptible Power Supply
