

Description - Produces a single direction adjustable clear stream jet, suitable only for low Jet heights and small bore sizes. Used mostly in groups on a ring of various diameters.

Sizes - Available with a 12mm inlet and bore sizes varying from 4mm to 10mm.

MOC - Machined Brass.

Custom - Custom thread and bore sizes are possible.

Type - Water level independent (no change in water effect with varying water level.)

Dimensions

MODEL	Height	Inlet (B)
CDT - Crown Nozzle 4mm	60mm	12mm
CDT - Crown Nozzle 6mm	70mm	12mm
CDT - Crown Nozzle 8mm	75mm	12mm
CDT - Crown Nozzle 10mm	75mm	12mm

Flow Rate for Crown Nozzle

MODEL	Crown Nozzle 4	Crown Nozzle 6	Crown Nozzle 8	Crown Nozzle 10
Spray Ht. (in m)	LPM	LPM	LPM	LPM
1.00	5	9	16	22
1.50	6	10	18	28
2.00	7	12	19	32
3.00	8	14	25	38
