

# Bell Jet Nozzle

**Description** - Produces a clear sheet of water falling in the form of an umbrella. Dia of the umbrella can be adjusted by turning the top of the nozzle clockwise or anticlockwise.

**Sizes** - Available with 25mm inlet and 300mm or 450mm length with 50mm pipe dia.

**MOC** - Machined Brass.

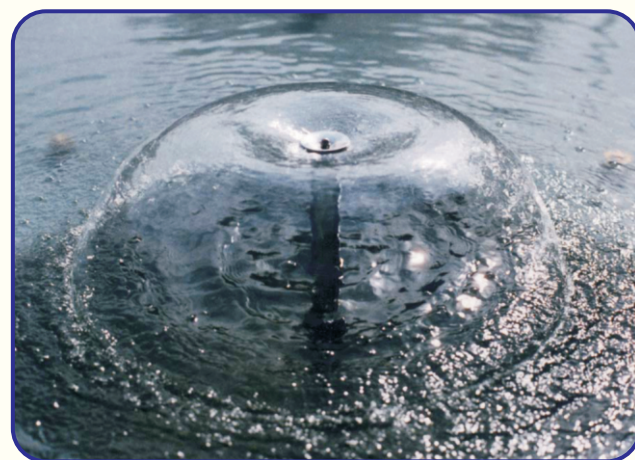

**Custom** - Custom nozzle heights are possible.

**Type** - Water level independent (no change in water effect with varying water level.)
