INSTRUMENT***

Driven by a passion **to deliver the best**

0 - 10 V 2 Line Single Side 4 Inch Wall Mounted Jumbo Display Indicator, 0-10 V Input 4-20 mA Output 1 Channel Voltage To Current Converter Signal Isolator, 0-20 MA Input 2W Thermocouple Transmitter, 1 Channel 4-20 mA Input - Output AC Current Transmitter Signal Isolator, 1 Panel Mounted Inch Digital Numeric Process Control Indicator, 10 Inch - 800 Cdm² Indoor 7 Segment LED Display, 2.3 Inch Wall Mounted 4 Digit Display, etc.

PROCESS INDICATOR DUAL RELAY

PROCESS INDICATOR

RTD HEAD MOUNTED

About Us

Established in 1978 and based in Sangli, Maharashtra, YU Technologies Pvt Ltd has built a strong legacy as a trusted manufacturer and supplier of high quality Electronic Instrument. With over four decades of experience, we specialize in designing, producing, and delivering reliable instruments that enhance operational efficiency, accuracy, and safety across diverse industries. Our extensive product range includes Dual Line Jumbo Display, Process Indicator Dual Relay, Loop Power Rtd Transmitter, Field Mounted Process Indicator and a wide array of precision measurement and control devices. Each product is crafted with cutting edge technology and stringent quality standards, ensuring consistent performance even in the most demanding industrial environments.

We prioritize innovation, durability, and customer satisfaction. Our skilled team of engineers and technicians continuously works to refine our offerings, integrating the latest advancements in automation and instrumentation to meet evolving industry needs. By combining technical expertise with prompt service and customized solutions, we have earned the trust of clients nationwide. Our commitment extends beyond products, we aim to empower industries with accurate monitoring, reliable process control, and seamless operational management. Whether it is upgrading existing systems or implementing new solutions, we stand as a dependable partner dedicated to supporting growth, efficiency, and long term success for every client we serve.

Key Facts

| OEM Service Provided | No |

Our Products

48X96 Mm On Off Control Temperature

4 Inch 7 Segment LED Wall Mounted Process

4 MA Dual Output Signal Isolation

48X48 Mm On Off Universal Process

Voltage Current Signal Isolator Converter

Millivolt To Volt Converter Signal

0-10 V Input 4-20 MA Output 1 Channel

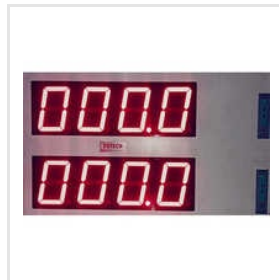

24V DC Signal Isolators And Converters

Dual Output Signal Isolator

6 Inch 3 Line Jumbo Display Indicator With

0 - 10 V 2 Line Single Side 4 Inch Wall

Digital Process Indicator With

24VDC 0-9999 Process Indicator Controller

1 Channel 4-20 MA Input - Output AC

Analog PID Controller Indicator

0-20 MA Input 2W Thermocouple

ADDRESS

Midc, Plot No B-8/5, Opp. Mseb Substation, Miraj, Sangli, Maharashtra, India (416410).
