**STAINLESS STEEL HOT RUNNER  
NOZZLE**

**HOT RUNNER NOZZLE WITH  
THREADING**

**EXTRA LONG NOZZLE**

## About Us

In 1994, a young and dynamic entrepreneur, Shri Suresh Babu started the Libesh Engineering Works. With high confidence and whole heart, he started the company for selling Hot Runner Systems and soon after the launch, we started receiving excellent responses. He established the company in the business capital of India, Mumbai, Maharashtra and from here, the company has been fulfilling the requirements of customers throughout India and in many foreign nations. We are popular for selling Multi Tip Nozzle, HRS Crate Mould, Temperature Controller, Plastic Storage Crate, Coil Heater, Tubular Heater, and many other products.

The hot runner system consists of many channels, it functions by equally distributing the molten plastic within a mould. The moulds installed in the hot runner system deliver moulded components more economically, uniformly and faster. With the use of this modern systems, companies experience increase in the overall efficiency, measurable results and clearance parts. They help in saving the energy bills and plastics by tremendously reducing the plastic production cost. The uninterrupted production and economical cost of the systems further make them ideal to be used for large quantity production jobs and making large size moulded parts.

## Key Facts

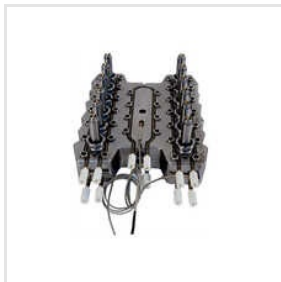

<b>No of Staff</b>	23
<b>Year of Establishment</b>	1994
<b>OEM Service Provided</b>	No

## Our Products

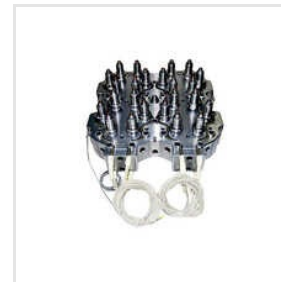

**5 Drop Hot Runner System For Water Filter**

**12 Drop Hot Runner System For Containers**

**4 Drop Semi Hot Runner System**

**24 Drop Hot Runner System For Cap Mould**

**3600W PID Temperature Controller**

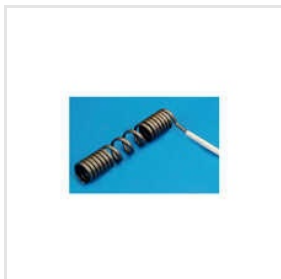

**Plastic Storage Crate**

**Vacuum Blood Collection Tubes**

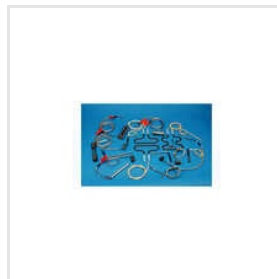

**Tubular Heater**

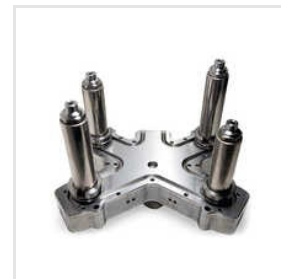

**Coil Heater**

**Multi Tip Nozzle**

**Micro Tubular Coil Heater**

**HRS Crate Mould**
