## About Us

Super Electrical Co. is a leading name for manufacturing the best in the quality **Distribution Panels, Power Distribution Panels etc.** Since our inception, we have progressed remarkably and have made significant inroads on the market. Through commitment to high business ethics, competitive pricing policy and client centric approach, we have registered a position of one of the leading **Manufacturers, Suppliers & Service Providers of Distribution Panels, Power Distribution Panels, etc.** Empowered by our own production house and test laboratory which are equipped with latest technology and machinery, that gives us full control over manufacturing and quality.

## Quality Policy

It is our commitment to offering our customers top-of-the-line control panels which thoroughly satisfy customer specification and requirements. In keeping with our quality management system, our quality analysts ensure that our entire range is manufactured using high grade raw materials and in adherence to the defined industry standards. Moreover, we have set up our own quality inspection department that is outfitted with all required facilities, wherein our quality analysts conduct different quality tests on well defined parameters for ensuring the delivery of a completely flawless & unmatched Electrical and Instrument Control Panels including Relay Panels, Relay Control Panels, etc to our customers.

Following are the key parameters for our quality testing processes:

- Performance ● Durability ● Efficiency ● Design ● Safety in usage ● Durable finish

## Specialized In :

**Super Electrical Co.** is specialized in servicing and repairing of **ACB's** of **GE make, ABB, AREVA** and **L&T**.

We are also providing repairing and installation services for:

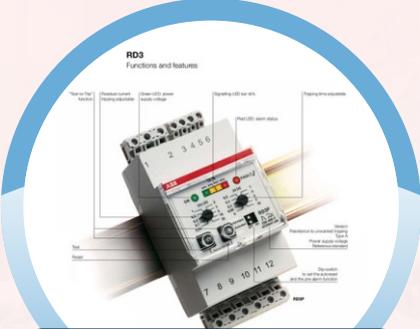

- ACB - Air Circuit Breakers
- VCB - Vacuum Circuit Breakers
- MCCB Repairing
- Sf6 Circuit Breakers
- Relay & Release Testing
- Dehydration of Transformer.

We have attained unprecedented growth in our domain under the able guidance of our mentor, **Mr. Kuldeep Singh**. His dynamic leadership skills and vast industry knowledge have enabled us to establish a positive reputation in this highly competitive industry.

**MCB Distribution Board**

**ABB Residual Current Devices**

**Electronic Low Voltage Residual Current Devices**

**ABB Distribution Board**

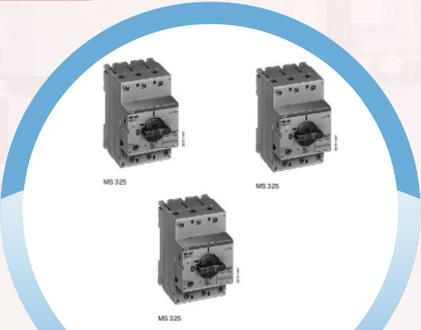

**Low Voltage Switchgears**

**Thermal Magnetic MCCB**

**Delta Changeover**

**Motor Starters MS 325**

**ABB Soft Starters**

**Low Voltage Soft Starters**

**ABB PSR Series Softstarters**

**Low Voltage Starters**
