About Us

Quality makes a difference for a business only when it makes a difference to the customer. Under this belief, we, Santosh Engineering Works, established our company in the year 1986. For several decades, our company has tasted success as an eminent manufacturer and supplier of a wide range of Glass Bottle Rinsing Filling Capping Machines, Nano Filtration Systems, Reverse Osmosis Water Plants, Mix Mixomatic Machines, and other similar products. The offered gamut has unique features like high efficiency, lower maintenance costs, easy operations, stable performance, and a long service life. Thus, these features increase the demand for our products on the market.

Our company, Santosh Engineering Works, is based in Vasai, Maharashtra, India, and is a well-known manufacturer and supplier of a wide range of Mix Mixomatic Machines, Reverse Osmosis Water Plants, Nano Filtration Systems, Glass Bottle Rinsing Filling Capping Machines, and other similar products. Since the commencement of our business in 1986, our company has evolved through generations and, thus, has adequate experience to understand the changing patterns of the market. Utilizing our rich industry experience and in-depth knowledge, we bring a unique and innovative product range to the market. Customers appreciate our cutting-edge products for their unparalleled quality and choose us again and again for our ethical business operations. Today, we stand in a reputable position in the market.
