

# HYDRAULIC HOPPER CONCRETE MIXER

**40\***  
Batches/Hour**Technical Data****EHY 300/350 D/E**

|                        |              |
|------------------------|--------------|
| Drum Capacity          | 480 Ltrs     |
| Capacity (Unmixed)     | 300/350 Ltrs |
| Capacity (Mixed)       | 200/250 Ltrs |
| Water Volume           | 480 Ltrs     |
| Power (Diesel Engine)  | 6 HP         |
| Power (Electric Motor) | 5 HP         |
| Drum Base              | Cast Iron/MS |
| No. of Bins            | 1 or 2       |
| Production Rate*       | 6 - 8 CuM/Hr |
| Weight (Approx.)       | 1300 Kgs     |

**FEATURES**

- ♦ Rugged & reliable design principles.
- ♦ Built in reliability.
- ♦ Hydraulic pump directly mounted on prime mover.
- ♦ Jacks for stability during operations.
- ♦ Easy to transport.
- ♦ Pneumatic / MS wheels with towing bar.
- ♦ Prime mover : Electric motor or Diesel engine.

**OPTIONAL**

- ♦ **Dual Drives:** Electric motor & Diesel engine on the same chassis.
- ♦ Easy interchangeability of power source.
- ♦ **Digital Weighing System:** With/without print facility monitor & USB port.
- ♦ Calibrated water tank - 40 ltrs. with water dispenser system.
- ♦ Towing speed 15 km/hr.
