COVID-19

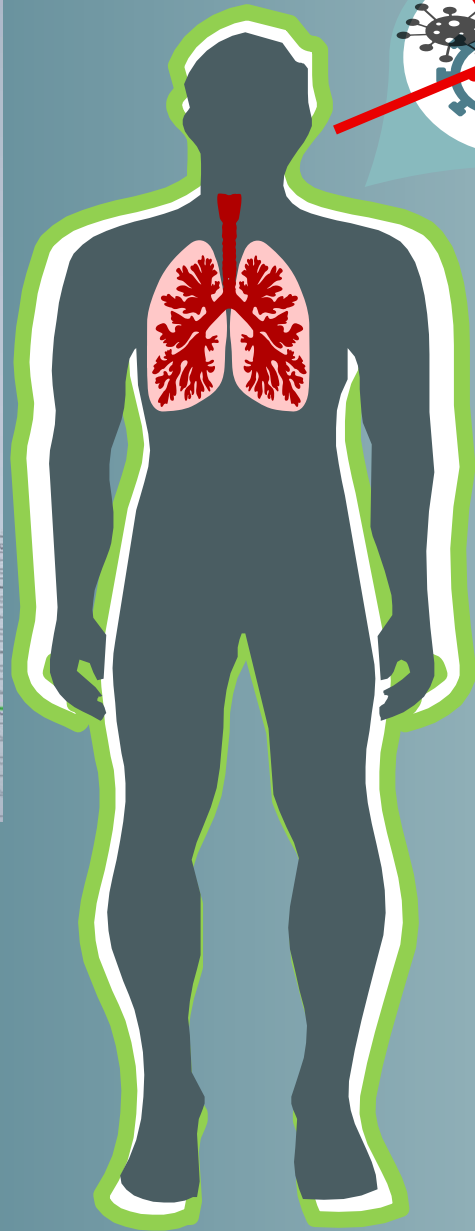

Post Lockdown Challenges

Once the Lockdown is over the threat of spread of this may keep haunting us. Post lockdown when people get back to their works, offices, schools, malls and gather at public places, we need a reliable, effective and flexible large flow disinfection and temperature measurement system to ensure that people entering the premises or markets are free from any viruses.

COVID-19
PANDEMIC

CREATE PROTECTIVE SHIELD TO STOP COVID-19

It is used for epidemic prevention and useful for full body sanitization for people passing through it.

It generates disinfectant mist and spray it on pets, goods and other objects using ultrasonic humidification in 360° all-round way. Spray time can be adjusted as needed.

These are easy and convenient in transportation and supports installation virtually at any site. The shower is designed for spraying of Disinfectant liquid from nozzles.

Features of Design

Non- Contact Design

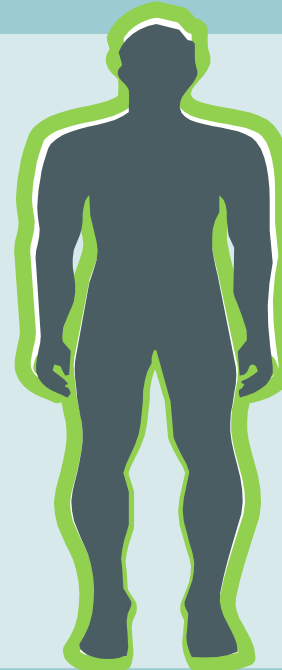

Avoiding spread

Automatic Control

Advanced Sensors

Personal Disinfection

Ensure Virus Free Entrance

Temperature Measurement

High Accuracy

Technical Specifications

Internal size	900x1500x2100 mm (WxDxH)
External Size	1000x1600x2300mm (WxDxH)
Capacity	For 1 persons
Construction	High Durable PP/HDPE Sheets Of 17-19 mm thick
Nozzles	360 Degree coverage nozzles Fixed on Two Side Walls & Top ceiling (10 nozzles)
Mist Method	Ultrasonic Humidification
Spray Efficiency	6-7 Litre/ Hr
Disinfectant Tank capacity	50 Litre tank
Pumping Motor	Flameproof Motor
Flow	Multi Directional
Wash Down Time	Adjustable from 0-10 sec
Digital Timer	Calibrated Digital Timer for 0-60 seconds LED display having option of SV (Set Value) & PV (Process Value)
Floor	Heavy SS Perforated Sheet And a space for collecting the liquid if any occurs
Door	Transparent PVC curtain of 4" wide each strap and on both side
Sanitizer Platform	A sanitizer platform is on right side for keeping the sanitizer so any one can use before entering into the shower (for Hands rub only)
Noise Level	Below than 40 DB
Load	1 KW
Power supply	220 V AC, single phase 50 Hz

THANK YOU
