CSR

The Essae Group: A hallmark of Excellence.

Essae Foundation with a belief in a value system works to turn children into good and self-confident citizens. Not every student can translate the knowledge as wisdom. The foundation focused on acquainting children about the right ways to use the knowledge for the progress of the individual, society and the nation.

The Essae Group started the Essae Foundation in 2001 to share the wealth created by the corporate concerns with society. Children in the rural areas are given primary education and imparted with moral values, so that they can learn, assimilate and understand the essence of a value system as well as follow it.

The Essae Group and all its employees share the responsibility to serve society through the Essae Foundation to share wealth that is created.

LEADERSHIP TEAM

The Essae Group: A hallmark of Excellence.

S.A. Chandran (Chairman-Emeritus)

S.A. Chandran believes that an organic organisation requires healthy growth. No one owns the organisation. The growth is established by the Trusteeship that involves stakeholders, including business associates, shareholders, vendors, internal/external customers and society. An organisation can survive only when it can fulfil the obligations of any of the stakeholders.

"WIN-WIN" IS THE ESSENCE LONG-LASTING RELATIONSHIPS.

Core values of Quality, Cost and Delivery are preserved, and growth is simulated to meet the challenges in challenging times. Sustained growth is guaranteed when business starts thinking like a customer. We commit to preserve our core values and stimulate positive change.

Prabhu Chandran (Managing Director)

Essae Teraoka Private Limited adds value to all customers by supplying superior quality weighing and POS systems, with a backup of sales and service network including 47 branches and more than 300 resellers. Indian customers get best of quality, technology and innovation; behind this is our partnership with global manufacturers. Our products have reached to Japanese domestic market as well, as we have joint ventured with Teraoka Seiko of Japan.

Our Bengaluru based Research & Development center brings forth innovative products and customised weighing systems to meet the unique requirements of the Indian market. Our ISO-9001 certified production plants efficiently meet the requirements of local and global markets.

The secret behind the success of the Essae Group is the support of our customers and business partners, in addition to the commitment and contribution of Essae team.
