G R O U P

AN ISO 9001-2010 CERTIFIED CO.

**Shashank Group Engineers**

*Quality Isn't Expensive - It's Priceless*

## INTRODUCTION

SHASHANK an ISO 9001:2010 accredited organisation having manufacturing plant located at DELHI, are pioneers in manufacturing various steel products used in construction industry. We have diversified into construction of Pre Engineered Steel Buildings required for varied Industrial constructions viz Warehouses, Aircraft Hangers, Food Processing Units Cement Plants, Pharmaceutical units, Steel Plants, Textile Mills, Automobile Industries etc.

## SHASHANK ENGINEERED BUILDING SYSTEM :

Pre-Engineered Steel Building System is widely accepted across the globe as an efficient alternative to Conventional Steel Buildings. It is the most affordable and flexible building system ideal for any low/high rise Industrial, Institutional or Commercial Applications. The system offers excellent features such as speed of construction, quality, strength and value addition making it the most preferred building system in the world. In India, Pre-Engineered & Pre-Fabricated Building Industry is growing rapidly. PEB, as the system known popularly, offers many advantages as below:

**STRENGTH & DURABILITY :** withstanding severe climatic conditions viz weather extremes and seismic variations.

**LOWER INVESTMENT COSTS :** Low initial investment and minimal maintenance costs.

**ECO FRIENDLY :** All the components in the building can be recycled (Eco Friendly)

**FLEXIBILITY :** Renovation, Expansion and Modification with Ease. Easily relocated due to bolt & nut connections.

**AESTHETIC VALUE :** Offers new solutions and opportunities, allowing engineers to expand their artistic expression and create some of the most aesthetic and challenging unique buildings.

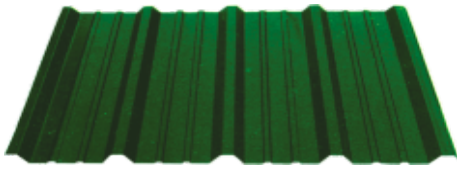

**SAVES TIME :** Installation time is considerably reduced as the erection techniques involved are very precise and simple.

**PREAMBLE :** We are engaged in Design, Manufacture, Fabrication, Supply and Installation of Pre-Engineered Steel Building conforming with International Quality Standards. Every Steel Building is designed to meet specific customer's requirement viz subjective loadings, size, project location for rain, wind, snow and seismic coding. We have the expertise, creativity and dynamic leadership with substantial experience in the field of structural engineering and steel. With access to state of art technology, meticulous planning and execution, following best practices in business, we assure our customers of processing and executing their orders to their utmost satisfaction, in time & every time.

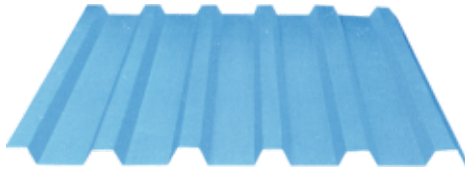

## RANGE OF PRODUCTS

### TRAPEZOIDAL SCREW DOWN ROOF AND WALL PANELS

RIB PROFILE

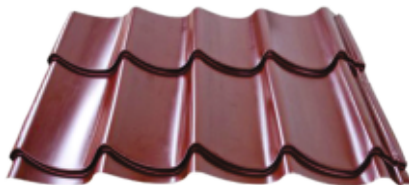

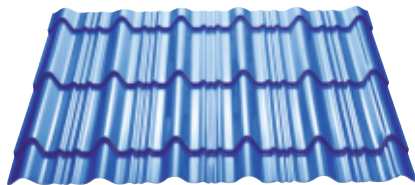

CLAD PROFILE

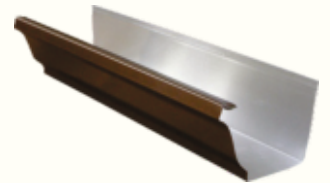

CLIP LOCK PROFILE

### TILE PROFILE

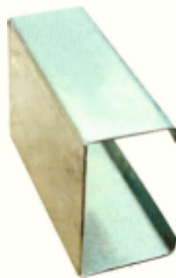

### GUTTER & DOWN PIPE

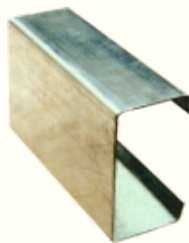

### Z-PIPE, C-SECTION & EAVE STRUT

Z-PURLIN

C-SECTION

EAVE STRUT

### PUF PANELS

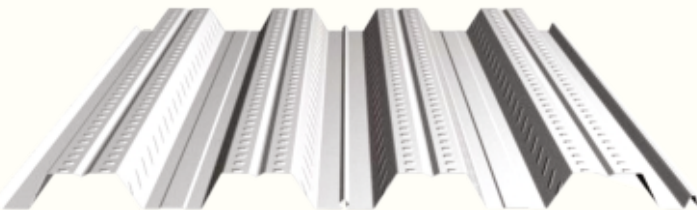

ROOF PANEL

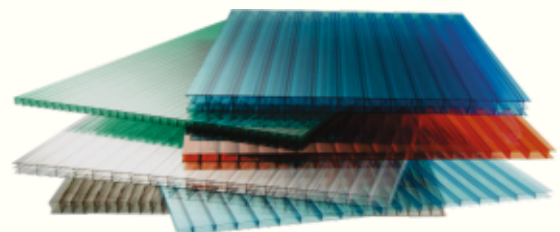

WALL PANEL

### DECKING SHEET

### POLYCARBONATE SHEETS

DECKING SHEET
