About Us

The bearing is a mechanical device used in a machine for making two components fix at a place without interrupting their independent linear or circular motion. With a line of different types bearings, we, Shree Shakti Traders, have come up here. We are offering Ball Bearing, Needle Bearing, Roller Bearing, Mechanical Bearing, Custom Mechanical Bearing, Thrust Bearing and much more. Procured from some renowned firms, these bearings are widely famous for their sturdiness, rust resistant nature and require low lubricant for smooth functioning. Apart from this, we are also providing Pillow Blocks and plumber blocks for industrial uses.

Established in the year of 1989, we have got immense expertise in **Importing, Trading and Exporting of Mechanical Bearing, Custom Mechanical Bearing**, Thrust Bearing and other industrial bearings. We procure our 100% products through imports and sell them in local as well as global market. Our exporting covers 20% of the whole business of our company. Having the support of our professional, we have been serving our clients since four decades and have succeeded in winning their hearts by providing a perfect solution regarding bearings.

We, Shree Shakti Traders, are a well-known name in the market, offering all types of bearings including Thrust Bearing, Ball Bearing, Roller Bearing etc. In order to provide you finest quality bearing, we procure them from reliable vendors after ensuring their delivery service and product quality. Located in Delhi, India, we are making our business in whole India as well as overseas. Due to our qualitative products and reliable services, we have made a strong position in the global market. Our professionals are working with utmost responsibilities and carrying our entity to new heights of success day by day. Moreover, our innovative business strategies enhancing our opportunities and enlarging our clientele.

Quality Assurance

When procuring a device, quality is the main concern of client, therefore we never compromise with the quality of offered ball, tapered or thrust bearings. We procure our products from reliable vendors who ensure us for the lawlessness of the products. They manufacture the items through quality controlling system and inspect each finished item thoroughly on the basis of finish, strength, max speed or toughness. Moreover, we also have a team of engineers for in-house quality checking process.
