

*We are making a gamut of products that are appreciated world wide for the accuracy, durability and corrosion resistant nature.*

ATX Series Temp Transmitter, Air Pressure Regulator Transmitter, Analog Signal Isolator, Differential Pressure Transmitter, Digital Industrial Pressure Transmitter, Fixed Co2 Gas Detector, HART COMMUNICATOR, High Resolution Ultrasonic Level Sensor, Humidity Data Logger, Humidity Recorders, Humidity Temperature Sensor, Humidity Transmitter TH-100, I P Transmitters, Industrial Pressure Transmitter, Industrial Temperature Humidity Transmitter, etc.

**HUMIDITY TEMPERATURE SENSOR    RELATIVE HUMIDITY TRANSMITTERS    HUMIDITY TRANSMITTER TH-100**

## About Us

Founded in the year, 1995, we, Pyrotron (India) Inc. are an ISO 9001:2008 Certified Company with CE Mark, working with a mission to achieve complete customer satisfaction by offering them quality instruments and automation solutions. We are the leading manufacturer, exporter, and supplier of Analytical Instruments, Furnace & Ovens, Motion Control, Digital Display, Timer & Counter includes A/C Drive, Jumbo Display, Counter, Digital Timer, Vacuum Oven, Digital Counter, Techometer, Digital Timer Small, High Temp Furnace and many more. As a service provider, we offer high-end after sales servicing for hi-tech products manufactured by renowned manufacturers based in Germany, USA, Italy, Korea, China, Switzerland, Japan and & other European countries. We have established our own engineering, designing and manufacturing facilities at Delhi and sales and service centers across many cities in India. Our infrastructure boast of temperature sensor manufacturing with full facility to fabricate, assemble, test & calibrate all the products. We are a technology-driven manufacturing, marketing and servicing company. Our technical expertise stands tall in comparison to that of other Temperature Sensor manufacturers in the market.

The foundation stone of our company was laid by our mentor Mr. Lokesh Kumar and team of technocrats who possess years of experience & knowledge gained from diverse fields such as instrumentation and analytic, bio-medical and process control. With the help of excellent management skills and sharp business acumen to understand contemporary demands of our mentor we have achieved a good position in the market. He extract the best from each professionals working for the company to present the customers with products as per their requirements.

We are making a gamut of products that are appreciated world wide for the accuracy, durability and corrosion resistant nature. Our offered items find their use in many industrial and domestic application such as pharmaceutical, sugar, chemical and milk industry. We also offer customized solutions to the clients as per their requirement.

## Key Facts

<b>No of Staff</b>	5
<b>Year of Establishment</b>	1993
<b>OEM Service Provided</b>	No

## Our Products

**Ultra Sonic Level Sensor**

**Differential Pressure Transmitter**

**Air Pressure Regulator Transmitter**

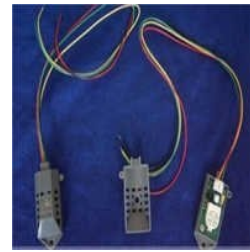

**Analog Signal Isolator**

**Multinational Data Logger**

**Temperature Data Logger RC4**

**Temperature Humidity Sensor**

**Digital Industrial Pressure Transmitter**

**ATX Series Temp Transmitter**

**Smart Signal Isolator**

**I P Transmitters**

**Industrial Pressure Transmitter**

**Level Pressure Transmitters**

**Humidity Data Logger**

**Industrial Temperature Humidity Transmitter**

**Temperature Data Logger**
