

*Service Provider, Manufacturer, Supplier and Exporter*  
**INSTRUMENT CALIBRATION SERVICES**

CMM Machine Calibration Services, CNC Laser Calibration, Caliper Checker Calibration Services, Electronic Autocollimator Calibration Services, Glass Scale Calibration Services, Height Gauge Calibration Services, Industrial Gauge Calibration Services, Length Bar Calibration Services, Level Gauge Calibration Services, Measuring Pin Calibration Services, etc.

**INDUSTRIAL GAUGE CALIBRATION SERVICES**

**HEIGHT GAUGE CALIBRATION SERVICES**

**LEVEL GAUGE CALIBRATION SERVICES**

## About Us

One of the most important aspects of establishing a sophisticated system of machinery and high utility industrial equipments is proper calibration and mensuration of instruments. Since heavy machinery involves a multitude of small and large parts and delicate components, it is of utmost importance that they are fitted with the highest levels of accuracy and perfection, so that no hindrance is encountered in their smooth operation. Ever since our inception in 2009, Tanson Instrument has strived towards achieving the greatest levels of craftsmanship and industry expertise, in the domain of calibration and other related services. Dedicated to development of calibration technology through scientific excellence and innovation, we are leading Service Provider of high precision and advanced calibration solutions, such as Calibration Service, Laser Interferometric, Slip Gauge Calibration, etc.

In the domain of heavy tool operation and management industry, utility of precisely cut and calibrated components is vital, and the aforementioned operations, to simply put it, cannot be imagined without it. Be it computer aided solutions like Computer Numerical Control Machining, commonly known as CNC Machining, or Laser aided procedures for cutting and finishing. Established in 2009, Tanson Instrument is a name synonymous with quality and trust in the industry, due to our expertise in the domain and experience accumulated over the years. We are leading Service Provider of industrial calibration solutions like Calibration Service, Laser Interferometric, Slip Gauge Calibration and more. Based in Faridabad, Haryana, we aim to set a benchmark for others to follow, by continuously innovating and executing services that are way beyond what our contemporaries have to offer.

## Key Facts

<b>No of Staff</b>	10
<b>Year of Establishment</b>	2009
<b>OEM Service Provided</b>	No
<b>Memberships</b>	NABL

## Our Products

**CNC Laser Calibration**

**Slip Gauge Comparator**

**CMM Machine Calibration Services**

**Caliper Checker Calibration Services**

**Electronic Autocollimator**

**Universal Length Machine Calibration**

**Spline Ring Gauge Calibration Services**

**Steel Scale Calibration Services**

**Straight Edge Tool Calibration Services**

**Slip Gauge Calibration Services**

**Length Bar Calibration Services**

**Co-Ordinate Measuring Machine**

**Glass Scale Calibration Services**

**Thread Ring Gauge Calibration Services**

**Spirit Level Calibration Services**

**Measuring Pin Calibration Services**

ADDRESS

**Plot No.B-7, Ashoka Enclave,  
Phase- 2, Sector-37, Faridabad,  
Haryana, India (121003).**
