# ORTHOPEDIC & SURGICAL SOLUTIONS

Every Detail Matters in Healthcare  
We Perfect Them All

## About Us

At Netoos, we are dedicated to transforming healthcare through innovation, precision, and quality, we focus on delivering advanced solutions that enhance patient outcomes and empower healthcare professionals worldwide. Our commitment to excellence drives us to create reliable, safe, and cutting-edge devices designed to meet the evolving needs of modern healthcare systems.

Founded with a vision to revolutionize the medical device industry, a patient-centred approach to deliver products that make a real difference in healthcare. we strive to provide solutions that improve patient care, enhance healthcare efficiency, and elevate the overall experience for both patients and providers.

What sets us apart is our doctor-centric approach — each product is carefully designed to meet the specific needs and preferences of surgeons and medical professionals.

Quality, safety, and comfort are our core value system Whether you're looking for customized drapes, surgical gowns, or complete protective kits, cast bandages, crepe bandage we ensure consistent performance and dependable protection in every product.

We believe products are built for safety, comfort, and confidence in every procedure — because at Netoos Surgescienecs, You're always in safe hands!!

### Vision

To be a trusted global leader in providing safe, innovative, and reliable orthopaedic and surgical solutions that enhance patient care and contribute significantly to the safety & well-being of healthcare professionals.

### Mission

To manufacture and supply high-quality orthopaedic products and disposable surgical drapes that meet the highest standards of quality, safety, hygiene, and performance empowering healthcare professionals to deliver superior patient outcomes. We strive to build lasting relationships through integrity, innovation, to every life we touch.

# Orthopaedic Solutions

## P.O.P Bandage (Plaster of Paris)

- ▶ Super fine gypsum powder.
- ▶ Very short setting time: 2-4 minutes.

Available Sizes:  
10 cm \* 2.7 mtr | 15 cm \* 2.7 mtr

## Crepe Bandage

- ▶ Provides consistent compression and flexibility.
- ▶ Washable & non-fraying edges.
- ▶ Protects wrists, elbows, ankles and knees preventing sprains and strains.

Available Sizes:  
10 cm \* 2.7 mtr | 15 cm \* 2.7 mtr

## Elastic Adhesive Bandage

- ▶ Strong, stretchable and conforms to body contours.
- ▶ Ensures fixation, stays firm during activity.
- ▶ Lengthwise 150% extensibility.

Available Sizes:  
10 cm \* 1 mtr | 10 cm \* 4/6 mtr

## Fiberglass Cast Bandage

- ▶ Excellent Moulding – Superior multi-directional stretch gives excellent moulding on curved area.
- ▶ Smooth Finish – High quality substrate and special resin formula provides smooth surface as well as clean and strong end lamination.
- ▶ Light weight, Incredible strength, Durability, Air-permeability, and X-ray Transparency.

Available Sizes:  
2" \* 3.6 mtr. | 3" \* 3.6 mtr. | 4" \* 3.6 mtr. | 5" \* 3.6 mtr. | 6" \* 3.6 mtr.

## Gamjee Roll

- ▶ High Absorbency Cotton Gauze: Made from soft, high-quality cotton gauze for effective absorption of blood and exudates during wound care and dressing procedures.
- ▶ Skin-Friendly & Breathable: Gentle on skin with good air permeability, helping maintain hygiene and comfort during prolonged use.

## Soft Roll

- ▶ Undercast Padding for cushioning under Synthetic Plast & POP Bandage.
- ▶ Made of 100% finest quality polyester.
- ▶ Keeps the skin dry and comfortable during long term wear.

Available Sizes:  
10 cm \* 3 mtr. | 15 cm \* 3 mtr.

# Surgical Gowns & Disposable Sheets

## Standard Surgeon Gown

- ▶ **Barrier Protection:** Designed to provide effective protection against fluid and contamination during surgical and medical procedures, helping maintain a sterile environment.
- ▶ **Made from high quality non-woven fabric.**
- ▶ **GSM: 45**

## Wrap Around Surgeon Gown

- ▶ **360° Protection:** Wrap-around design provides enhanced front and back coverage, reducing exposure risk & improving protection during surgical procedures.
- ▶ **Comfortable & Adjustable Fit:** Made from breathable, lightweight fabric with tie-back closure.
- ▶ **GSM: 45**

## Reinforced Surgeon Gown

- ▶ **Enhanced Barrier Protection:** Features a reinforced front panel that provides improved resistance against fluids and contaminants, making it suitable for high-risk surgical procedures.
- ▶ **Comfortable & Secure Fit:** Made from breathable, lightweight non-woven material and tie-back closure to ensure comfort, flexibility, and secure coverage.
- ▶ **Customized GSM**

## Plain Sheet

- ▶ **Sterile Coverage:** Designed to provide effective coverage during surgical and medical procedures, helping maintain a clean and controlled environment.
- ▶ **Soft, Strong & Lint-Free Material:** Made from high-quality non-woven fabric that is gentle on surfaces, tear-resistant, and minimizes lint generation
- ▶ **Size:** Customized sizes available.

## Mayo Trolley Cover

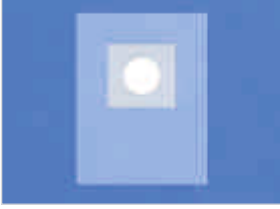

- ▶ **Maintains Sterile Work Surface:** Designed to cover mayo trolleys securely, helping maintain a sterile field during surgical and medical procedures.
- ▶ **Durable & Fluid-Resistant:** Made from high-quality non-woven fabric that resists fluid penetration while remaining tear-resistant for reliable intra-operative use.

## Wrapping Sheet

- ▶ **Effective Sterile Barrier:** Designed to create a reliable protective layer for wrapping surgical instruments, trays, and medical supplies during sterilization and storage.
- ▶ **Strong, Lint-Free & Breathable:** Made from high-quality non-woven material that resists tearing, minimizes lint generation, and allows proper sterilant penetration.
- ▶ **Customize size with preferred GSM.**

# Gynecology & General Surgery Drapes

## Cesarean Drape

- ▶ Cesarean Drapes create a barrier between the surgical field and possible sources of microbes during Cesarean delivery cases.
- ▶ The drape is fabricated with high quality SMS fabric & specially designed with fluid collection system around the fenestration attached with fluid drainage Valve.
- ▶ Made up of Non-Woven fabric.

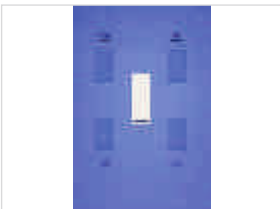

## Full Gynec Drape

- ▶ Comprehensive Procedural Coverage: Designed to provide full sterile coverage for gynaecological examinations and surgical procedures, ensuring patient privacy and effective field control.
- ▶ High-Barrier, Lint-Free: Made from premium non-woven fabric that offers reliable fluid resistance while minimizing lint to maintain aseptic conditions.
- ▶ Procedure-Oriented Design: Engineered for ease of draping; the drape is fabricated with high quality SMS fabric with fluid collection pouches and self-adhesive tape around the fenestration.

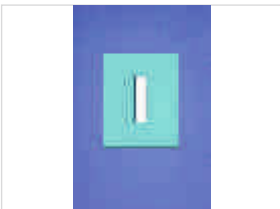

## Maternity Drape

- ▶ High-quality SMS / non-woven fabric provides an effective sterile barrier while remaining soft and comfortable for the patient.
- ▶ Highly absorbent reinforced area to effectively manage fluids and keep the surgical field dry.
- ▶ Integrated transparent V-shaped fluid collection pouch for controlled and hygienic fluid drainage.

## Laparoscopy Drape

- ▶ Laparoscopy drapes create a barrier between the surgical field and possible sources of microbes during Laparoscopy surgery.
- ▶ The drape is fabricated with high quality SMS fabric with absorbent and self-adhesive tape around the fenestration.

## Laparotomy Drape

- ▶ Laparotomy Drape is a made up of SMS non-woven fabric with a fenestration in the centre and surrounded by an absorbent area.
- ▶ Drapes create a barrier between the surgical field and possible sources of microbes during Laparotomy surgical procedure.

## Major Drape

- ▶ Made from durable, high-quality non-woven material.
- ▶ Disposable for single-use safety.
- ▶ Fluid-resistant to maintain a sterile environment.
- ▶ Suitable for all major surgical procedures.

# Orthopaedic Drape

## Knee-O-Drape

- ▶ Knee O Drapes create a barrier between the surgical field and possible sources of microbes during Knee/Elbow orthopaedic surgeries.
- ▶ The drape is fabricated with high quality SMS fabric and Spunlace absorbent fabric; it has a elastic knee gripper for the fenestration.
- ▶ Material-Non-Woven-Reinforced.

## Knee Arthroscopy Drape

- ▶ Knee Arthroscopy Drapes create a barrier between the surgical field and possible sources of microbes during arthroscopy surgery for Knee, shoulder, elbow, ankle, hip or wrist.
- ▶ Large Drape size to cover full width and length of the patient.
- ▶ Bigger Fluid collection bag with drainage system.
- ▶ Elastic gripper with fenestration of 2" dia.

## Hip U Drape

- ▶ Hip U Drapes create a barrier between the surgical field and possible sources of microbes during Hip/ shoulder orthopaedic surgeries.
- ▶ The drape is fabricated with high quality SMS fabric and Spun lace absorbent fabric; it has adhesive tape around the fenestration.

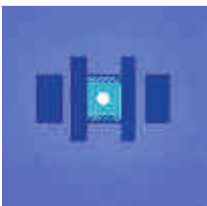

## Shoulder U Drape

- ▶ High-quality, fluid-resistant non-woven material.
- ▶ Disposable for single-use safety.
- ▶ U-shaped design for targeted surgical access.
- ▶ Suitable for orthopaedic and shoulder surgeries.

## Shoulder Arthroscopy Drape

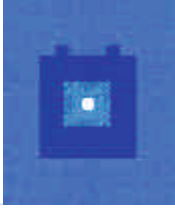

- ▶ Designed for Arthroscopic Shoulder Procedures: Specifically engineered to support shoulder arthroscopy, providing optimal exposure.
- ▶ Features reinforced fenestration with fluid collection pouch to efficiently manage irrigation fluids during high-volume arthroscopic procedures.
- ▶ Made from premium non-woven material offering effective fluid resistance and cleanliness, supporting safety and efficiency in the operating theatre.

## Elbow-O-Drape

- ▶ Procedure-Specific Elbow Access: Designed with a circular ("O") fenestration to provide precise exposure of the elbow joint while maintaining a sterile field.
- ▶ Made from high-quality non-woven fabric that offers effective barrier protection and helps reduce contamination risk during surgery.

# Orthopaedic & Urology Drapes

## Extremity Drape

- ▶ Provides full sterile coverage for upper or lower limbs, allowing controlled exposure during orthopaedic and trauma procedures.
- ▶ Fluid-resistant, lint-free non-woven fabric provides reliable barrier protection while keeping the operative area clean.
- ▶ Designed with precise openings and stable construction for quick placement and secure positioning during surgical procedures.

## Bilateral Drape

- ▶ Provides simultaneous access to two surgical sites, enhancing efficiency in orthopedic and specialized procedures.
- ▶ Fluid-resistant, lint-free non-woven material ensures reliable protection and a clean sterile field.
- ▶ Engineered openings provide precise exposure and secure placement for better procedural control.

## Universal Spine Drape

- ▶ Lamino spinal drape with absorbent and incise
- ▶ 240\*340 cm with reinforcement, fenestration with incise adhesive fluid collection bag & port.
- ▶ Absorbency-Yes
- ▶ Material-Non-Woven
- ▶ Packaging Size-Medical Pouch: Sterilized
- ▶ GSM-50 GSM

## Lamino Spinal Drape

- ▶ Designed for spinal procedures, offering precise surgical access while maintaining a controlled sterile field.
- ▶ Premium lint-free non-woven fabric provides strong fluid resistance for clean, aseptic surgical conditions.
- ▶ Designed for secure placement and efficient fluid control to support clear visibility and smooth workflow during complex spine procedures.

## TURP Drape

- ▶ TURP Drapes create a barrier between the surgical field and possible sources of microbes during Transurethral Resection of the Prostate Surgery.
- ▶ The drape is fabricated with high quality SMMS fabric with Wider fluid collection funnel, Surgeon Protection Apron, Patient Leggings & adhesive fenestration of 3".
- ▶ Wider Fluid collection funnel with filtration system.
- ▶ Adhesive fenestration of 3" dia.

## PCNL Drape

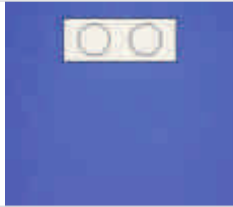

- ▶ PCNL Drapes create a barrier between the surgical field and possible sources of microbes during Percutaneous Nephrolithotomy (PCNL) surgery.
- ▶ The drape is fabricated with high quality SMMS fabric with wider fluid collection funnel, Protection Apron for the surgeon and Incise fenestration of 10"x8".
- ▶ Large Drape size to cover full width and length of the patient.
- ▶ Incise fenestration of 10"x8"

# Cardiac & Nephrology & Ophthalmic Drapes

## Angiography Drape

- ▶ Angiography drapes create a barrier between the surgical field and possible sources of microbes during Angiography Surgery.
- ▶ The drape is fabricated with high quality SMS fabric with adhesive tape around the fenestrations.

## Angioplasty Drape

- ▶ Designed for Interventional Procedures: Specifically engineered for angioplasty and catheterization procedures, providing precise coverage and access points for controlled clinical workflow.
- ▶ Fluid-Resistant & Lint-Free Material: Made from high-quality non-woven fabric that offers effective fluid barrier protection while minimizing lint to maintain a clean sterile field.

## Pacemaker Drape

- ▶ The drape is fabricated with high quality SMS fabric with screen sheet and adhesive tape around the fenestration.
- ▶ Large Drape size to cover full width and length of the patient.
- ▶ Adequate fenestration Size for easier operation.
- ▶ Attached with transparent screen sheet with tie for the monitor view.
- ▶ Tube holders around the fenestration for easy alignment of tubes.
- ▶ Adhesive tape around the fenestration.

## Craniotomy Drape

- ▶ Craniotomy Drapes create a barrier between the surgical field and possible sources of microbes during Craniotomy surgery.
- ▶ The drape is fabricated with high quality SMS fabric and specially designed with fluid collection system around the fenestration attached with funnel.

## Eye Drape

- ▶ Sterile transparent ocular window with adhesive border ensures an airtight seal while maintaining clear, glare-free microscope visibility.
- ▶ Low-profile transparent pouch collects irrigation fluid securely and allows easy visual level monitoring.
- ▶ Lint-free SMMS body with reinforced adhesive zones — resists contamination, is gentle on skin, and stays fixed throughout long ophthalmic procedures.

## HIV Kit / PPE Kit

- ▶ Complete protection kit designed to reduce exposure to blood-borne pathogens, including HIV, during medical and emergency care.
- ▶ Provides standardized PPE to protect healthcare professionals and support infection control.
- ▶ Regular Variant: Cap, Face Mask, Goggles, Surgeon Gown, Gloves, Shoe cover, Plain Sheet
- ▶ Premium Variant includes hood cap, face mask, goggles, jumpsuit/reinforced wrap-around gown, gloves, shoe covers, and plain sheet.

# Ancillary Products

## Cannula Fixator

- ▶ **Secure Cannula Stabilization:** Designed to firmly hold IV cannulas in place, reducing the risk of accidental movement or dislodgement during patient care.
- ▶ **Skin-Friendly & Breathable Material:** Made from soft, hypoallergenic material that allows air circulation and minimizes skin irritation during prolonged use.
- ▶ **Size:** 4\*6 cm

## N-Razor

- ▶ **Pre-Operative Hair Removal:** Designed for safe and effective removal of hair before surgical procedures, helping reduce infection risk and improve surgical site preparation.
- ▶ **Sharp & Skin-Safe Blade:** Features a precision blade that ensures smooth shaving with minimal skin irritation, suitable for sensitive surgical areas.
- ▶ **Ergonomic, Single-Use Design:** Lightweight handle with a secure grip allows controlled use by medical professionals while maintaining strict hygiene standards.

## Bouffant Cap & Shoe Cover

- ▶ **Complete hair containment with lightweight non woven fabric,** keeping the surgical or clean area free of stray hair and reducing contamination risk
- ▶ **Barrier protection against dust, fluids, and contaminants** with an elasticized design that quickly fits over footwear, supporting cleaner floors and safer movement in medical or sterile zones.

## Fiberglass Cast Cutter

- ▶ **High-speed precision cutting:** Designed for smooth, controlled cutting of fiberglass casts with minimal vibration for patient comfort.
- ▶ **Ergonomic & safe design:** Lightweight, hand-held unit with insulated grip and safety accessories to reduce heat transfer and injury risk.
- ▶ **Reliable clinical performance:** Suitable for continuous hospital use with consistent power output and easy maintenance.

## P.O.P Cutter

- ▶ **High-speed fiberglass cutter with ergonomic design** enables fast, smooth and safe removal of POP & synthetic casts, Low weight 1 Kg.
- ▶ **Precision circular blade** delivers controlled cutting with minimal heat generation and enhanced patient safety.
- ▶ **Durable, easy-to-maintain system** designed for reliable performance in orthopaedic and emergency settings.

## Industrial Kit (Pent-Shirt)

- ▶ **Ensures instant GMP / HACCP compliance** for every visitor, audit, and inspection.
- ▶ **Prevents contamination** from hair, footwear, clothing, and external contact.
- ▶ **Simplifies SOP execution** with a single, ready-to-use hygiene kit.
- ▶ **Projects a professional, controlled environment** during audits and plant visit.

# Procedural Packs & Kits

CATEGORY	PROCEDURAL PACKS & KITS	PARTICULARS
<b>ORTHOPAEDIC</b>	Total Knee Replacement Kit	Surgeon Gown, Hand Towel, Top Sheet, Bottom Sheet, Trolley Cover, TKR Drape, Large Sheet, Medium Sheet, Leggings, Wrapping Sheet
	Total Hip Replacement Kit	Surgeon Gown, Hand Towel, Top Sheet, Trolley Cover, THR Drape, Large Sheet, Medium Sheet, Leggings, Wrapping Sheet
	Arthroscopy Kit	Surgeon Gown, Hand Towel, Wing Sheet, Bottom Sheet, Trolley Cover, Arthroscopy Drape, Large Sheet, Medium Sheet, Leggings, Wrapping Sheet
<b>GYNECOLOGY</b>	Normal Delivery Kit	Surgeon Gown, Hand Towel, Maternity Sheet, Small Sheet, Leggings, Centre Hole Sheet, Caury Bag, Moping Pad, Wrapping Sheet
	Cesarean Kit	Surgeon Gown, Hand Towel, Main Drape (C.S.Drape), Large Sheet, Medium Sheet, Baby Towel, Moping pad, Wrapping Sheet
	Laparoscopy Drape Kit	Surgeon Gown, Mayo trolley cover, drape with hole, Hand towel, Large sheet, Small sheet, Leggings, Wrapping sheet
	Laparotomy Drape Kit	Surgeon Gown, Laparotomy Drape, Hand Towel, Suture bag, Mayo trolley cover, Wrapping Sheet
	IVF Kit	Surgeon Gown, Hand Towel, Perineal Drape with Hole, Medium Drape, Leggings, Gauze Swab, Wrap Sheet

# Procedural Packs & Kits

CATEGORY	PROCEDURAL PACKS & KITS	PARTICULARS
<b>GENERAL SURGERY</b>	General Surgery Drape Kit	Surgeon Gown, Hand Towel, Large Sheet, Medium Sheet, Trolley Sheet, Wrapping Sheet.
	Universal Drape Kit	Surgeon Gown, Hand Towel, Plain Large Sheet with Adh. Tape, Mayo trolley cover, Castry Bag, Wrapping Sheet.
<b>CARDIOLOGY</b>	CABG Kit	Surgeon Gown, Hand Towel, PDL Sheet Large, CABG Drape, Screen Sheet with Tie, Trolley Sheet, Small Sheet, Leg Cover, Side Sheet, Castry Bag, Release Tape, PLD Sheet Medium, Cardiac Cover, Wrapping Sheet.
	Angiography Drape Kit	Surgeon Gown, Hand Towel, Angiography Drape, Medium Sheet, Trolley Sheet, Radial Sheet, LED Cover, Gauze Swab, Mopping Pad.
	Angioplasty Drape Kit	Surgeon Gown, Hand Towel, Angioplasty Drape, Trolley Cover, Femoral Radial Drape.
	Pacemaker Drape Kit	Surgeon Gown, Pacemaker Drape, Hand Towel, Main trolley cover, Wrapping Sheet.
<b>NEUROLOGY</b>	Craniotomy Kit	Surgeon Gown, Hand Towel, Craniotomy Drape, Large Sheet, Trolley Sheet, Medium Sheet, Wrapping Sheet.
<b>UROLOGY</b>	TURP Kit	Surgeon Gown, Hand Towel, TURP Drape, Large Sheet, Trolley Sheet, Medium Sheet, Wrapping Sheet.
