# Business Profile

We are one of the leading railing manufacturer from Rajkot. Estd. in year 2005. We have supply network in India. We have been in the manufacturing from more than one decade which ensures our reliability & credibility in client circle. Our supply network is effective in reaching the target and influencing the defined market segment. Our Marketing segment carry out regular market search to find out customer preferences and informs the same to the organization in strategizing objectives.

Under guidance of **Mr. Haresh Asodiya** we are able to grow our base throughout the domestic market. With his business acumen and years of experience, we are able to build cordial relationship with clients. After establishing in our stranglehold in the domestic market we are now looking forward to national market.

## Product Profile

We supply comprehensive range of stainless steel railings sourced raw materials from reliable vendors, the domestic as well as from global vendors eg. Jindal Saw Ltd.. Our range of product comprises of Stainless Steel Railing, Glass Canopy, Spider Work...

- Superior Performance
- Mechanical Properties
- Durability
- Corrosion Resistance
- High Tensile Strength
- Temperature & Pressure Resistance

## We Cater To

Our exclusive range of stainless steel railing products supplies meets the demands of several users like Architects, Engineers, Civil Contractors & Direct Users owing to their excellent technical & physical properties.

## Our Relationship with Clients

Our enormous success in the domestic market is solely based on our reliable, responsible & quality conscious clients. Throughout the years we have been able to maintain & develop a strong relationship with our clients. The cordial relationship with our clients allow us to supply premium range of precision steel railing as well as fittings. We ensure the quality of our sourced products meet the international standard for quality. Further, we Endeavor to maintain long term relationship with our widespread clients.

## Key Features of MRW Handrail & Balustrade System

- No Welding or fabrication is required at site as all the parts are developed at fully equipped manufacturing unit.
- AISI 304/316 grade raw material ensures durability and reliability for life as well as requires almost no or minimal maintenance.
- Top Balustrades are mounted on specially developed central stud to provide extra grip & strength to staircase system.
- Availability of wide range of designs with the option of Toughened Glass, Horizontal Pipe members.

## Quality Compliance / Assurance

In the midst of extensive manufacturing activities, we always emphasize on quality of our stainless steel railing, pipes & fittings. Our quality policy forms the fundamental principle & makes an essential feature of our organization for overall development of our business activities. We conduct extensive market survey & procure our range of industrial supplies from trusted & renowned vendors & ensure that these are inspected strictly on a number of parameters by our apt quality assurance inspectors.

## Client Satisfaction

We have firm belief in catering to our clients strictly as per their satisfactions in order to facilitate their convenience in proficiently utilizing the products we offer. Our clients are our foremost priority & to keep them satisfied we strive to procure technologies, advanced industrial supplies which successfully fulfil their requirements. Our pain staking efforts to supply optimum quality products have earned us numerous accolades from our clients.

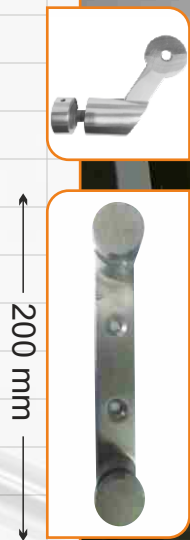

Further, due to our cordial relations with vendors from where we source our entire range of steel pipes & fittings. We are capable of supplying products on the word of our clients & as per their specified details. Owing to our timely delivery schedules & superior quality supplies, we have acquired the trust & goodwill of our respectable clients in domestic & national market.
