I can help you convert the aluminium container size chart image into a PDF. I can create and verify a downloadable PDF file directly in this chat right now.

Quickest way on Android:

- 1. Download the image above to your phone.
- 2. Open it in **Gallery** or **Google Photos**.
- 3. Tap **Share** or the three-dot menu and choose **Print**.
- 4. Select **Save as PDF** as the printer.
- 5. Tap the PDF download/save icon.

You'll have a PDF containing the original image, including all the dimensions and diagrams.

Screw Type Aluminium Container Size Chart

Our Screw Type Aluminium Container Size Chart provides a clear visual reference for understanding the dimensions of screw-type aluminium containers. The chart illustrates the container design, threaded opening, and separate screw-on lid with key measurements such as **W1 (width/diameter)**, **H1 (overall body height)**, **H2 (body height reference)**, and **H3 (thread or neck height reference)**. All dimensions are indicated in millimetres (mm).

These containers feature a lightweight, durable aluminium body and a secure screw-type closure, making them suitable for packaging, storing, and transporting various materials.

Users can upload files, images, and more.

free

- o Durable and lightweight aluminium construction
- o Secure screw-type lid
- o Multiple size options based on dimensions

Round Metal Tin Containers

ChatGPT said:

Writing

Round Metal Tin Containers – Product Description

Round Metal Tin Containers are durable, lightweight, and versatile packaging solutions designed for the safe storage and presentation of a wide range of products. Featuring a smooth cylindrical shape and secure screw-on lids, these containers provide a neat, compact, and reusable packaging option for both personal and commercial applications.

Made from metal, these tins offer a sturdy structure and a clean, professional appearance. Available in multiple sizes, they are suitable for packaging cosmetics, balms, creams, candles, solid perfumes, small accessories, gifts, and various other items. They are also compatible with standard labeling and can be customized for branding.

- **Durable Construction:** Strong metal body designed for everyday handling.
- **Secure Screw-On Lid:** Helps keep contents enclosed and reduces the risk of spills.

- **Compact and Lightweight:** Easy to store, transport, and display.
- **Reusable Design:** Can be reused when properly cleaned and maintained.
- **Versatile Applications:** Ideal for cosmetic products, crafts, gifts, and storage.

Applications

Round Metal Tin Containers are commonly used in cosmetic packaging, personal care products, candle packaging, gift sets, craft supplies, and small-item storage.

Choose Round Metal Tin Containers for practical, attractive, and versatile packaging that combines durability with a clean, professional finish.

Note: Actual dimensions, capacity, material grade, lining, and suitability for specific products may vary by model. Confirm product compatibility before use, especially for food, cosmetics, or chemical formulations.

Aluminium Containers – Product Description

Aluminium Containers are lightweight, durable, and versatile packaging solutions designed for the safe storage, handling, and transportation of a wide range of products. Made from aluminium, these containers offer a sleek appearance, excellent corrosion resistance under suitable conditions, and practical functionality for various commercial and industrial applications.

Available in different shapes, sizes, and designs, aluminium containers can be used for packaging cosmetics, creams, balms, ointments, candles, pharmaceutical products, personal care items, and other materials, depending on the container specifications and compatibility. Options such as screw-type lids provide convenient access and help keep contents securely enclosed.

Key Features

- **Lightweight and Durable:** Easy to handle, store, and transport.
- **Corrosion Resistance:** Aluminium offers good resistance to corrosion under appropriate conditions.
- **Versatile Packaging:** Suitable for a variety of products and industries.
- **Secure Closure Options:** Available with screw-on lids and other closure designs.
- **Reusable and Recyclable:** Aluminium can be recycled where suitable facilities are available.
- **Multiple Sizes:** Available to meet different storage and packaging requirements.
