Fittings &
Faucets

A woman with dark hair is relaxing in a hot tub, surrounded by white foam. In the background, a large waterfall cascades down a rocky surface. The scene is set in a rustic, wooden environment.

Create Your Bathroom
With ^{Khushi} TM **Sanya**
Bath Fittings

WELCOME TO **Sanya** BATH FITTING

Sanya is a highly reputed name engaged in manufacturing and supplying a complete range of Bath Fittings. Backed by a team of qualified professionals, we have been able to bring forward the best quality products. we have established a strong foothold in the national market by supplying high quality product since last 40 years

Our products are processed using finest quality of brass ensuring high quality standards and efficiency. Our quality analysts test each lot of the finished products on well-defined parameters, thus ensuring compliance with international standards.

QUALITY

We strive for excellence that goes way beyond the surface of our products. In fact, from design to production and customer service we aim for nothing less than perfection at every stage. Rigorous internal tests and numerous external certification processes give our customers complete confidence in a name they can trust.

TECHNOLOGY

In our relentless search for technological innovation we work to integrate the latest digital and technological advances. creating smart solutions that enhance our customers' enjoyment of water. Our in-house experts harness the power of water to revolution the experience of our customers in their day-to-day life thus creating moment of truth, for our products and brand.

DESIGN

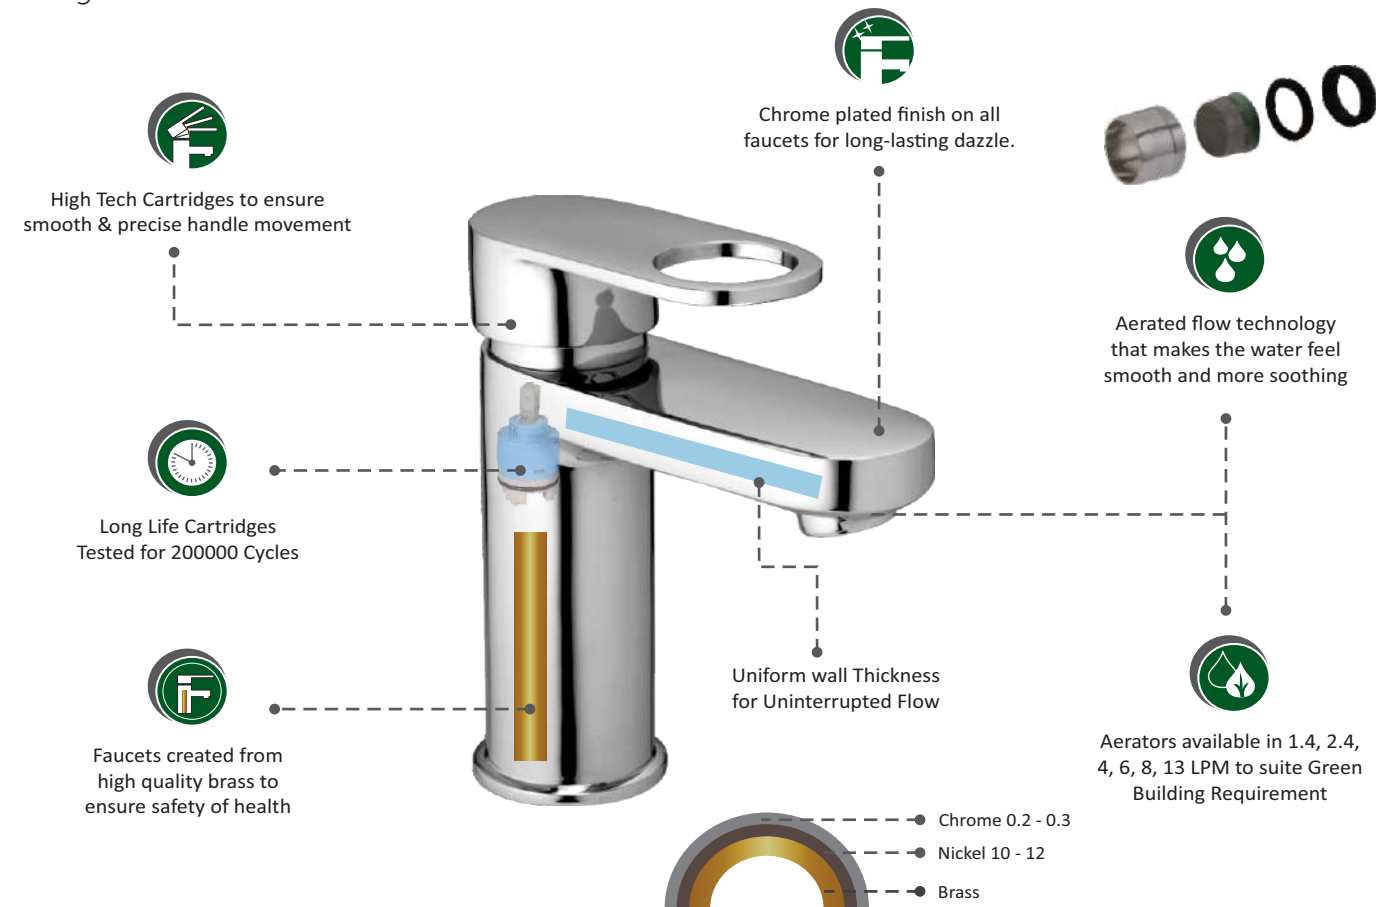

An empathetic and intuitive design language offers us the opportunity to create products that feel as if they were designed just for you. This unique **Sanya** that is both ergonomic and visually distinctive has earned us numerous design awards: world class references are testimony to our world-wide recognition.

SUSTAINABILITY

Water is as essential as the air that we breathe, one more reason why we are so passionate about it. To be able to offer "Pure Freude an Wasser", not just today's consumer but for generations to come, we offer sustainable product solutions like **Sanya** we demonstrate through our Sustainability Report and Sustainability accolades that we have made a serious corporate commitment to protect the planet.

Working : A faucet is a device for delivering water form a plumbing system. it consists of the following components : Spout, handle(s), lift rod, cartridge, aerator, mixing chamber, and water inlets. When the handle is turned on, the valve opens and controls the water flow adjustment under any water or temperature condition. The faucet body is usually made of brass, though die-casting and chrome.

FAUCETS

Cartaidge : Cartridge faucets have a hollow metal cartridge insert that seals against the spout of faucet body. Depending on how a series of holes in the cartridge align with the stem, water is mixed and controlled. Drips usually mean the cartridge needs replacing. Cartridge faucets are referred to as "washerless" because they control flow using methods other than a washer and valve seat (though they do have O-rings and seals to prevent leaking). We make a washerlss single-habdle faucet with a hollow brass cartridge insert that seals against the inside of the faucet body with O-ring. Water flow is controlled by an up-and-down movement of the cartridge; to change water temperature, you need to just rotate the handle.

Aerators : We uses Neopear Aerators prevent splashing shaping the water stream coming out of the faucet spout, to produce a straight and evenly pressured stream. It has multiple benefits like water conservation reduction in energy costs and Reducing faucet noise To increase the perceived water pressure, (often used in homes with low water pressure)

Chrome Finish : Upper shiny protection layer provides a mirror finish to every faucet. High plating thickness (Nickel : 10 microns and chrome : 0.3 microns) provides tolerance to extreme climate and water condition. 400 + hours of self spray test ensures our finishes are highly durable and corrosion resistant for a much longer duration.
