About Us

Established in 1984, New Dhiman Mech Works is a trusted name in the manufacturing and supply of high-performance construction machinery. Based in Sirhind, Punjab, India, we have built a strong reputation for delivering innovative, durable, and efficient machines that simplify complex construction tasks. With decades of technical expertise and a commitment to excellence, our company continues to serve clients across India with reliability and precision.

As a leading manufacturer and supplier, we specialize in a wide range of construction and material-handling equipment, including Brick Crusher Machine With Engine, Mixture Machine, Suspended Cradle System, Bar Cutting Machine and Bar Bending Machine. Each product is engineered with superior-grade materials and advanced technology to ensure long-lasting performance and minimal maintenance. Our machines are designed to meet diverse site requirements while maintaining high safety and quality standards. Quality is more than a promise - its a practice embedded in every stage of production. From raw material selection to final inspection, every process is monitored under strict quality control. We continuously upgrade our machinery and adopt new manufacturing techniques to meet modern construction challenges. Our focus on innovation helps our clients achieve faster project completion, reduced operational costs, and enhanced productivity.

Customer trust is the foundation of our success. Over the years, we have earned loyal clients by providing prompt delivery, transparent dealings, and responsive after-sales service. Our team of skilled professionals ensures that each client receives the best technical guidance and support throughout their project journey. We take pride in maintaining long-term relationships based on integrity, performance, and value creation.
