## About Us

We, Sen Security Solutions, as our name indicates, are a powerful name in the field of supplying high-tech Security & Surveillance Products that are designed to protect various businesses and assets. These systems like Hook Lock and Anti Theft Alarm System with good sensors & alarms when installed by a thoroughly professional service provider can improve restrictions and prevent burglary, vandalism or any other form of unwanted intrusions. Our well-constructed and intelligent systems like Security Lanyard, Tablet Display Security Stand, RF Dual Series Security Equipment, etc., are also made to give one the best possible safety and security. We also serve as an importer of affordable and innovative Security & Surveillance Products that we source in bulk from the market of China.

Each product that we offer as a manufacturer, trader and exporter is embedded with its own set of advantageous features, so one can choose any product befitting specific and special needs. We also have been providing customizable options in our security and other products since 2011 under our own brand name SSS. Last but not the least, we render timely Installation And Maintenance Service of Security System so that our solutions can become a part of safety and protection arsenal of any desirous client hailing from any sector.
