## About Us

Weltex, founded in 2011, is one of Vadodara, Gujarats fastest growing manufacturers and suppliers of a wide range of Textile Machines and Textile Machine Spare Parts. Our collection includes Industries Fabric Simple Rolling Machine, Double Fold Lapping Machine With Oscillating Unwinder And EL Guider, Electro Magnetic Cloth Guider and a lot more items. The range is praised for its precision design, durability, sturdy construction, great performance, and low maintenance. It is made from the highest quality raw materials. Our unwavering commitment to high quality, low costs, and on-time delivery has helped us earn clients trust and confidence. We have created a sophisticated production facility that allows us to provide high-quality items that meet industry standards. Our unit, which is manned by a team of experts, also assists us in keeping each delivery on schedule. Furthermore, we provide facilities services for OEM and contract manufacturing to satisfy the specialized needs of clients.

We have been able to establish a niche for ourselves in the domain by using the extensive experience of our mentors, Mr. Prashant Joshi and Mr. Hemant Patel. Their great commercial skills and extensive industry knowledge have aided us in developing cordial and long-term relationships with some of the industrys main players. Arvind Group, Sangam Group, Radnik Group, Zonav Home Collection, Bajari Group, and Blue Blends Group are a few among them.

## Infrastructure

We have established a robust infrastructure facility for the manufacture of the range as well as the execution of other business procedures. The unit is located in Vadodara and covers an area of 1850 square feet. Furthermore, the unit is evenly divided into numerous departments, including manufacturing, quality testing, research, and others, to streamline our company processes. Our production operation, which is equipped with innovative machines and equipment, allows us to provide technically advanced machines and dimensionally exact spares. Furthermore, our research division assists us in conducting various surveys and researches in order to keep the variety fresh. Our researchers also assist us in improving our manufacturing processes and products such as Double Fold Lapping Machine With Oscillating Unwinder And EL Guider, Industries Fabric Simple Rolling Machine, Electro Magnetic Cloth Guider, etc. while lowering costs.

# Our Prodcuts
