About Us

For more than 35 years, we, Badnaji & Sons have been making available excellent solutions such as Activated Alumina Ball, Silica Gel Breather, Clay Desiccant Bead, Container Desiccant Bag, etc. Customers all over India trust our high-quality standards for products and services. They admire our efforts as a manufacturer to make available world-class solutions at the leading prices of markets. Owing to the high demand for our range in markets, bulk orders are placed each day by our customers. They are fulfilled with punctuality and consignments are delivered on time always. Along with our product range, we are admired for the other aspects of our business like client support policy. Owing to that, we are available through our customer care unit around the clock. Customers can contact us anytime for order inquiries and product placement. We owe gratitude to our mentor, Mr. R.K. Jain, for his unwavering support and guidance in helping us achieve exponential growth.

Our company is very focused on quality, which has allowed us to gain a leading position in this sector. From the receipt of raw materials until the final shipping of the products such as Container Desiccant Bag, Clay Desiccant Bead, etc., a watchful team of quality experts maintains an eye on every step of the process.

We are capable of adapting and providing our services in accordance specifications of the clients due to the support of smart infrastructure. It comprises various departments such as formulations, quality testing, and packaging. We use cutting-edge technology to formulate and supply products that meet international quality standards. In addition to this, our well-equipped infrastructure is responsible for our heavy production capacity due to which we process big size orders with perfection.

Key Facts

No of Staff	10
Year of Establishment	1984
OEM Service Provided	No

Our Products

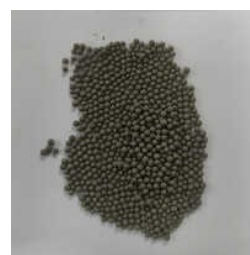

Drying Agent Silica Gel

Calcium Chloride Based Desiccant

Silica Gel Container Desiccant Bag

Clay Desiccant Pouches

Container Desiccants

Wasake Gel Sap Pouches

Carbon Molecular Sieves

13 HP NAX Sodium Molecular Sieve

Molecular Sieve Powder

Blue Crystal Silica Gel

Desiccant Silica Gel

Green Silica Gel Beads

Orange Silica Gel Beads

Zeolite Molecular Sieves

13 LIX Lithium Molecular Sieve

Activated Alumina Balls
