About Us

Rollcon Technofab (India) Pvt. Ltd. is the pioneer in field of providing customized solutions for material handling and conveying needs. With roots dating back to early 80s our professionals have gained immense and deep knowledge of designing economical & most effective solution for the clients. Some of the products we manufacture includes Industrial Conveyor System, Coal Handling Plant, Belt Conveyor, Bucket Elevator, Vibro Feeder, Vibrating Screen, Wood Chipper, etc. We at Rollcon had realized this long back that clients needs vary from each other also the plant layouts, capacities processes and budgets and at Rollcon we have mastered in tailoring the product to fit the needs of the client with the help of our design who have developed in house softwares for providing the best solutions to the customers. Unlike most of the companies in the field that stick to a basic design and sell the product across the range of customers, we design each project separately to provide the clients with the most optimized solutions

It has also been observed in cases that due to this exclusive time of action most of our clients end up saving around 25 % of their estimated budgeted cost of project which comes handy at the final stages of the project wherein rest of the budget is disturbed due to miscellaneous and hidden unaccounted expenses. Our professionals have been involved in a worldwide research and keep themselves updated with the latest in technological front and pass on their knowledge to new technology combined with their experience to customize the final product. Due to this we have often observed that customers & even sometimes our competitors are not aware of a particular solution & are overwhelmed do to welcome the new solution.

Key Facts

Nature of Business	Manufacturer
Primary Competitive Advantages	rice husk handling system,briquette handling system,coal handling equipment,coal handling plant,material handling systems,ash handling equipment,ash handling systems,fuel handling systems
No of Staff	43
Year of Establishment	1989
No of Production Lines	3
OEM Service Provided	No
Monthly Production Capacity	850 Tonnes
Memberships	ISO 9001:2015, MSME
ProductRange	rice husk handling system,briquette handling system,coal handling equipment,coal handling plant,material handling systems,ash handling equipment,ash handling systems,fuel handling systems

Our Products

**Solid Waste Treatment
Composting Plant**

**Biomass Handling
Plant**

**Screening Plant
Suppliers**

Belt Conveyor Pulley

Rotary Airlock Valves

Coal Crushing Plant

**Pneumatic Ash
Handling System**

Conveyor Hood Cover

**Bagasse Handling
System**

Belt Conveyor System

**Industrial Conveyor
Belts**

**100kg Solid Waste
Compost Plant**

Coal Screening Plant

**Fuel & Ash Handling
System For Gasifiers**

**Conveying System For
Solid Waste Treatment**

**Coal Handling System
For Gasification Power**

ADDRESS

**B-3, Second Floor, Patel Garden
Extn, Dwarka Mod, New Delhi,
Delhi, India (110059).**
