## About Us

Borkar Polymers is a leading manufacturer, supplier, and distributor of prefab polymer structures that include prefab shops, prefab vending stalls, prefab toilets, prefab houses, prefab containers, prefab cabins, and many more products. Borker Polymers was incorporated by Mr. Aditya Borkar to fulfill the immense demand for quality pre-fabricated polymer structures. Our products are sturdy, highly functional, and aesthetic in appearance. We also manufacture daily-use polymer-based products such as garbage bins, planters, disinfectant tunnels, Niramlay kalash, etc. Our products can be easily assembled and installed at specified locations. We have a modernized fabrication facility equipped with advanced fabrication machinery that enables us to produce a diverse range of products. We are equipped to work with diverse materials, such as FRP, polymers, metals, etc., to suit the needs of clients. We also provide customization services to mold our product as per the specifications of the client. We are committed to providing quality products and services at competitive prices.

Borkar Polymers was incorporated by Mr. Aditya Borkar over two decades ago with a vision to transform the prefab industry by providing affordable prefab structures. Since its establishment in 2002, we have diversified our prefab product range to include prefab shops, prefab vending stalls, prefab toilets, prefab houses, prefab containers, prefab cabins, etc. Our product catalog also consists of products such as garbage bins, planters, disinfectant tunnels, Niramlay kalash, etc. Our products are reputed for their high functionality, structural integrity, and aesthetic finish. Our modern manufacturing facility is equipped with the latest fabrication machinery that enables us to mass produce our products with the highest quality and at an affordable price point. We aim to diversify our product range and make quality products available to our clients globally.
