## About Us

Our manufacturing business was implanted back in **1967** by Patel Brothers so as to timely cater diverse schools as well as office use stationery. In the modern age, our company is growing at a furious pace by producing slate pencil and passionately catering them to the Indian market. Our business has come a long way with expertise gained in manufacturing of **School Chalks, Tailors Marking Chalks, Slate Pencils (Slate Pen)**, etc. Our enterprise has gained customers loyalty by manufacturing product line in sync with the industry set quality norms. We always present industry accepted quality to valued customers. The product profile of our entity comprises **Double Color Mini Slate Pencil, Mix Color Square Shape Tailor Chalk, Dustless Chalk (Extruded Calcium Carbonate)**, etc.

The engineers of our company own required know-how and have access to technologically improved devices and machines to run excellently manufacturing practices. Production activities take place under one successful management under a group of companies having assistance of modern operational set up and professional teammates devoted to achieving top mark of quality. Our company as a manufacturer is open to innovations and further makes sure to implement the best in working system to attain 100% success.

A few years back in the process of creating and enhancing traditional line of products, our company realized the need of innovation for maintaining high growth as well as meeting modern needs of the potential market arenas. Hence, our professional R&D section was set up for introducing unique formulations of Dustless Chalk. Not just this, even machinery for manufacturing of Dustless Chalk was also designed and developed by R&D professionals of our entity. Today, we are elated to have expanded our product line so as to address demands of the schools stationery, offices, garment industry and various other areas of application. Our business has immense capacity to meet local and international companies wants in the best possible manner.
