## About Us

We, **Kuna Impex Pvt. Ltd.**, stand as a prominent associate to entities in industrial automation. We are acclaimed for serving our customers needs pertaining to pioneering industrial products, **Himel Circuit Breaker, CHINT Compensation Controller, Samkoon HMI** are few to name. Our **manufacturer** based proprietary firm came into being in 1990 but embraced private limited business in 1998. During initial business years, our company backed requirements of Indian Army by providing Hostalene Sandbags, Splinter Proof Shelters, Mine Tape and many more, which are still in use in this major sector. Back in 1994, our modern entity started industrial automation business and since that time, we have been looking after sales and service centers from Singapore, China and Spain, all of which, are coordinating with Kuna in India.

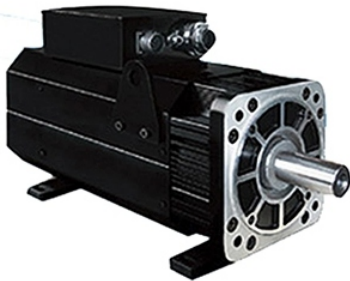

Our company renders services after sales. We have 35 dealers all over Indian region that help us in carrying out our services in an impeccable manner. From the year 2006, our firm is actively engaged in renewable energy business development. Owing to this, our firm established R&D in order to bring ahead vertical axis wind turbines, which are operable on small wind speed. Possessing greater expertise in this field of operation, we, Kuna Impex Pvt. Ltd., are making efforts to win against multinationals like Schneider, Siemens, L&T and ABB.

From initial business journey to now, we have made our presence more worth believing in the industry. Our products including **ABS Enclosure Box, CHINT Overload Relay, Estun Servo Drive** and many others are maintained in numerous sizes for completing evolving needs of clients. Our exceptional work has earned us awards such as Distribution Awards from CHINT, Outstanding Progress Award From Estun, etc. We sworn to continue earning such accolades in the near future.

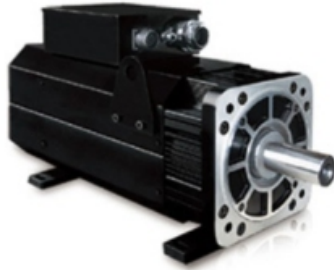

## Vision

We are standing tall on embracing Atma Nirbhar notion for manufacturing advanced products in India for meeting requirements of our several customers.

# Our Products

**Estun Pronet Series Servo Drive**

**EMB Servo Motor**

**EMG Servo Motor**

**EMJ Servo Motor**

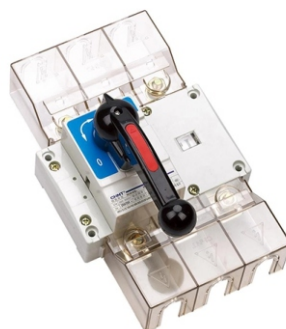

**Estun Press Brake Controller**

**Sensorless Vector Control  
Frequency Inverter**

**Samkoon HMI PLC And Scada**

**Nh40 Chint Automatic Change  
Over Switch**

**MCCB**

**NS2-25X Circuit Breaker**

**Ns2 Circuit Breaker**

**Nm1 Molded Case Circuit Breaker**

**NA8G Air Circuit Breaker**

**Na1 Air Circuit Breaker**

**MCB 3P**

**CHINT NXM Series Moulded Case Circuit Breaker**

**CHINT NB1-63H MCB**

**NXA Air Circuit Breaker**
