

About us....

Established in the year, **1985**, we are one of the illustrious manufacturers and suppliers of fine quality **Tractor Trailer Hydraulic Jack & Its Accessories**. Based at Rajkot, (Gujarat, India), our organization is renowned in the industry for providing excellent quality products to the customers. The products offered by us are applauded in the market for their corrosion resistance, outstanding performance, durability, efficiency and low maintenance. We have built a reputed position in the market due to our qualitative range of products. Our organization has progressed in a rapid pace over these years due to the unwavering efforts of our diligent professionals.

In the industry for practicing ethical and transparent business dealings, Our organization is appreciated for the timely execution of the consignments. Apart from these, several other important reasons that have made us the most preferred choice of our clients, are as follows:

■ Cost-effectiveness ■ Sophisticated infrastructure ■ Wide distribution network ■ Easy payment modes ■ Client-centric approach.

Highlights....

- Our oil seal design is of standard pattern since long time for easy replacement.
- Quality, quick supply and service after sale is the goal of our company.
- Each and every jack is being tested before despatch.
- Thousands of **VICTORY** jacks are running all over India smoothly & trouble free operation.
- We use premium quality steel from Vishakhapatnam steel plant for all our forging part of the hydraulic jack.
- We use standard common seamless pipe from Maharashtra seamless ltd. for efficient welding results.
- We use high grade quality polyurethane (PU) oil seal for trouble free operation.
- We have recently launched a special quality hydraulic jack in which we give a mild steel outer enclosing steel check nut for an immovable nut strength, and is metallic buffed on the outer pipe for a premium metallic look.
- We even make honed and hard chrome plated hydraulic jacks based on the demand and use of the customers.

High power strength with smooth hydraulic action...

We have given a forging-like solid piston rod design to get maximum strength and you will also find an embossed logo of **VICTORY** on top of the hydraulic jack. Our company is the first ever company of Rajkot to adopt such an efficient method like this.

**3 - 5 - 7 - 8 - 10 -15
Tonne capacity**
Suitable for tractor trailers
