## About Us

While Techno Edge Cutting Tools was officially established in 2023, our roots in the industry run deep. We have been operational since 2011, formerly known as Access Tools & Accessories. This transition represents over a decade of specialized experience and a long-standing commitment to quality that our customers have trusted for years. Techno Edge Cutting Tools is a reputed manufacturer and supplier of precision-engineered industrial tools and components, catering to the diverse requirements of machining, tooling, and manufacturing industries. We specialize in Solid Carbide Tailor-made Tools and Indexable Tailor-made Tooling Solutions, supporting complete tooling requirements. Additionally, we offer brazed carbide tools, PCD & CBN tools, deep hole drilling solutions, aerospace-specific tools, micro drills, and solid anti-vibration boring bars, Carbide tools especially designed for Inconel and Stainless Steel Machining.

We utilize quality-grade raw materials, advanced machinery, and proven manufacturing techniques to ensure superior product standards. Each product undergoes stringent quality checks to meet industry norms and client specifications. Supported by a skilled team of engineers and technicians, we focus on continuous improvement and innovation to keep pace with evolving market needs.
