

PRECISION TOOLS. SMARTER SOLUTIONS. STRONGER FUTURE.

EXPERT IN
SOLID CARBIDE &
INDEXABLE
CUSTOMIZED
TOOLING

ENGINEERED TO SOLVE. COMMITTED TO YOUR COMPETITIVE EDGE.

Delivering precision engineered solutions
that drive **performance** and **productivity**.

OUR CURRENT PRODUCT RANGE INCLUDES

-  Indexable Special Tools – Manufacturing
-  Solid Carbide Special Tools – Manufacturing
-  Solid Carbide Thread Milling Cutters – Manufacturing
-  Aerospace-Specific Solid Carbide Tools
-  CBN Inserts – Imported
-  Deep Hole Drilling Tools – Imported
-  Indexable Head Drills & Inserts – Imported
-  Solid Carbide Micro Tools (0.01 mm to 1 mm) – Imported
-  Modular Vibration Damping Boring Bars – Imported
-  Angular VMC Adapters – Imported
-  Indexable Thread Milling Cutters & Inserts – Imported

ABOUT US

Established in the year 2010 at Pune, (Maharashtra, India), we, **VIBMAA INDIA**, a leading company specializing in the fabrication of the highest quality and caliber tools.

With our concentration on the fabrication of products of the highest quality, we have been able to successfully satisfy our clients all over the country.

Efficient market studies and technical up gradation of all our manufacturing processes.

Advanced infrastructure and commitment to global quality standards.

Client satisfaction at the core of everything we do.

All these have enabled us to achieve a turnover of **\$1.5 million** annually.

OUR TEAM

We have a team of trained and experienced professional with 20+ years of experience.

Our team consists of the following experts:

- ✓ Procurement agents
- ✓ Quality controllers
- ✓ Warehousing and packaging experts
- ✓ Sales and marketing executives
- ✓ Technical guidance from 25 years
- ✓ R&D and product development specialists
- ✓ Precision manufacturing experts
- ✓ Process improvement specialists
- ✓ Logistics and supply chain experts

INFRASTRUCTURE

Our unit is spread in 3000 sq. ft., which is equipped with the most modern machines to design the finest quality.

The accessories which are widely used in the automobile industry. Moreover, while manufacturing, we purely maintain international standards to ensure that our products can surely compete other products offered in the unit thus ensure that our products are perfectly designed using MS Rod, MS Blanks, and BT50/30/40 Blanks. Further, we use VMC, Lathe, CNC, Milling, Grinding and other machines to enhance the quality of the machines.

OUR QUALITY ASSURANCE

Quality has always been one of the major concerns of our company. In order to meet our clients requirements we have implemented quality management practice in our operations.

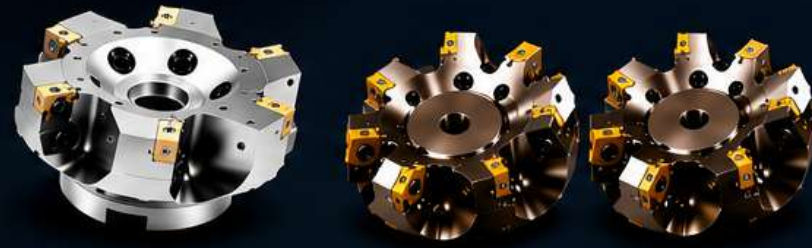

Moreover, while manufacturing these, right from the procurement to the final dispatch of the products, we do strict checking for Hardness, Flatness & Finish of all products.

In addition, for better results, our quality controllers test the entire range at every parameter, to ensure its durability and performance.
