

BSSH511L Series Bench Scale for Wet Environment

BSSH511L Series Bench Scale

BSSH511L Series is the combination of ID511L Weighing Terminal and RHS Series Stainless Steel Platform. Full Stainless Steel structure enable this unit to use in wet and mildly corrosive environment. It is extensively applied in food, chemistry, pharmacy industry and so on.

Features of BSSH511L Series Bench Scale:

- * Full Stainless Steel structure: 1.4301/AISI304
- * ID511L stainless steel desk housing: IP66
- * Hermetically sealed stainless steel load cell: IP67/IP68/IP69K
- * Clear reading in dark area.
- * Easy operation, fast response, high efficiency
- * Accurate weighing and reading
- * Broad range of weighing: 6kg~600kg
- * Output weight and records via computer
- * Print and print accumulating

Specifications of BSSH511L Series Bench Scale:

Model	Weight Range(kg)	Readability (kg)	Platform Size(mm)	Loadcell	Scale Stand Height(mm)			
BSSH511L	6	0.002	300x300	B6N	330			
	15	0.005						
	30	0.01						
	60	0.02						
	400x400	30	0.01	BM6E	330			
		60	0.02					
		150	0.05					
		60	0.02			500x500	BM6E	660
		150	0.05					
		60	0.02					
	600x600	150	0.05	BM6G	660			
		300	0.1					
		60	0.02			800x800	BM6G	660
		150	0.05					
300	0.1							
600	0.2							
BSSH511L	6	0.002	240x300	B6N	330

		600	0.2					
		600	0.2					

* Non-standard platforms & accessories can be customized

BSSH511L Weighing Terminal

- * 200,000 display division
- * Two display range/two increment size
- * RS232/485(standard)
- * 1" display, green or red
- * MODBUS_RTU
- * Basic function: zero, tare, clear & print
- * Auto tare, auto clear, auto print
- * Print and totalization
- * X10/Over/Under/OK/Count/Animal weighing/Unit Switch
- * Auto save battery, battery indication
- * Auto Power Off
- * Over/Under/OK alarm output with relay output
- * External input for basic function
- * Power Input: 100~264VAC, ≤0.1A
- * Ni-MH battery group, GP 7.2VDC 3800mAh
- * Options:
 1. 1 input/3 outputs(Relay)
 2. RTC(real timing clock)

RHS Series Stainless Steel Platform

- * Brushed stainless steel construction & brushed stainless steel load plate (1.4301/AISI304).
- * Hermetically sealed stainless steel load cell could provide an ingress protection of IP67/IP68/IP69K.
- * Rugged and durable construction makes the platform suitable in heavy duty application.
- * Comprehensive product line with various weight ranges and platform sizes.
- * Multi-functions of load platform combined versatile accessories can meet your exact requirements.
