

Unique Polyurethane

Industrial Polyurethane Products Brochure

Website: <https://www.uniquepolyurethane.com/>

Company Overview

Manufacturer of polyurethane components engineered for high wear resistance, load-bearing performance and long service life across industrial applications.

Product Portfolio

Product	Description / Typical Specifications
PU Rollers	Polyurethane-coated rollers for printing, steel, textile and packaging. Hardness: 60–95
PU Feed Rollers	High-grip feed rollers for paper, film and packaging machines. Precision finish with exc
PU Wheels	Heavy-duty polyurethane wheels for trolleys and material handling. High load capacity
PU Bushes	Precision polyurethane bushes for vibration damping and wear resistance.
PU Sheets	Polyurethane sheets in various thicknesses for liners, gaskets and wear pads.
PU Rods	Solid polyurethane rods for machining custom components.
PU Liners	Wear-resistant liners for mining, cement and bulk material handling.
PU Scrapers	Industrial scrapers for conveyor cleaning with high tear resistance.
Custom PU Components	Custom moulded polyurethane parts as per drawing or sample.

Key Features

- High abrasion resistance
- Oil & chemical resistance
- Long service life
- Low maintenance
- Custom hardness and dimensions
- OEM & bulk supply

Applications

Steel Plants, Printing, Packaging, Textile, Paper, Food Processing, Mining, Cement, Automotive, Material Handling and General Engineering.
