ELECTROPHORESIS SYSTEM**

DIGITAL FLAME PHOTOMETER

About Us

We at Anand Scientific Company uphold a leading position in Indian markets for our outstanding quality work related to lab equipment. As a trader since 2004, we have been committed to bring the finest grade of equipment of latest technology, standards and needs for the industries, hospitals, research centers and others from varied segments. Our offerings contain Heavy Duty Lab Centrifuge, PH Field Monitor, Water Proof PH Meter, Microprocessor Viscometer, Metallurgical Microscope, Blood Pressure Monitor and more items. Their superior quality features, accurate results, durability and cost-effective prices make these items worth the money.

Under the profound leadership of Mr. Ramesh Raja, we are running our business procedures smoothly from local to national areas. A large number of customers are not only appreciating the excellent quality of our work but also vouching for us to many new customers in the field. This way, we are rapidly increasing our network base and presence in markets with time.

Key Facts

No of Staff	10
Year of Establishment	2004
OEM Service Provided	No

Our Products

Single Phase Clinical Centrifuge

Laboratory Submarine Electrophoresis

Digital Flame Photometer

Automatic Karl Fischer Titrator

Stainless Steel Electromagnetic Stirrer

Mild Steel Hot Plate

Stainless Steel Hotplate Magnetic

Digital Laboratory Balance

Acrylic Glass PCR Workstation

Digital TDS Meter

Blood Bank Centrifuge

Chemical Basket Centrifuge

Single Phase Bod Incubator

Multiparameter System

Semi Automatic Horizontal

Laboratory Top Loading Balance
