

NUTRI-CHOLINE

(CHOLINE CHLORIDE 60%, CEREAL BASE)

FOR HEALTHY LIVER

 **VETCO (INDIA)**
ANIMAL NUTRITIONS An ISO 9001 : 2015 Co.

visit us at: www.vetcoindia.co.in

Composition and Characteristics

- **Nutri-Choline** is a corn cob based feed grade choline chloride
- **Nutri-Choline** is produced with precision and under high quality control parameters

CONTENT	CHOLINE CHLORIDE 60%
Carrier	Corn cob
Appearance	Yellowish to brown colour powder

FUNCTIONS OF NUTRI-CHOLINE

- **Nutri-Choline** is an excellent source of methyl group for methionine synthesis .
- **Nutri-Choline** is an essential vital metabolite to support cell metabolism.
- **Nutri-Choline** is an important cell messenger compound involved in the products of many essential process intermediates like acetyl choline.
- **Nutri-Choline** is essential for utilization of fatty acids in liver thus inhibiting the deposition of excess fat in the liver.
- **Nutri-Choline** is important for DNA synthesis & enhances embryonic growth resulting in optimum hatchability.
- **Nutri-Choline** synthesises acetylcholine neurotransmitter responsible for memory, muscular movements, and other vital functions.
- **Nutri-Choline** influences the metabolism of vitamin A & other carotenoids.
- **Nutri-Choline** stimulates weight gain, enhances immunity and improves carcass quality.

DOSAGE

Dose as per the nutritionist based on nutritional requirements

BROILER

PRESTARTER- 1-1.5kg/Tonne of feed

STARTER- 1Kg/ Tonne of feed

FINISHER- 1Kg/ Tonne of feed

LAYER

CHICKS CRUMBS /MASH- 1-1.5kg/Tonne of feed

GROWERS CRUMBS/MASH-1Kg / Tonne of feed

LAYER CRUMBS/ MASH -600Gm -1Kg/Tonne of feed

STORAGE & HANDLING

.Hygroscopic material.

.Store in a cool/dry place.

.Store at room temperature

PRESENTATION

25Kg triple laminated bag.
