## About Us

With an objective to serve our customer at economical rates, we, Alcoat Metal Finishers, laid the foundation of our company in the year 1994. From us, customers can avail services like Anodizing Services, Hard Anodizing Services, Electro Anodizing Colouring Services, Colour Anodizing Services, and so on with desired Quality at Economical Rates. Our service provider enterprise is offering a comprehensive range of non-fading and long lasting coating in different shades and finishes like glossy and matt ranging from light shade to Dark Grey, Golden Yellow, UV Yellow, and Black. Our professionals make use of Advanced Technology and High Quality Chemicals which results in greater hardness, higher corrosion resistance, premium quality, etc. Further, alkaline etching technology is utilized by us in order to create a controlled heating environment to produce anodic coating while minimizing weight loss. It is our commitment to work for client satisfaction which has enabled us to earn a reputed name in this service industry.

Quality is the prime concern for our organization and we put every possible effort to maintain the same. We always try to enhance the quality of our Hard Anodizing Services, White Anodizing Services, Colour Anodizing Services, Anodizing Services etc, so that we can make the customers happy. Our company intends to maintain the coating thickness and maintain the optimal colour consistency (+/- 5%). We are the best destination for those who want to join hands with a Enrich their business deals.
