About Us

The healthcare sector has grown exponentially the world over, and understanding this, we, Steris Healthcare Private Limited, stepped forward to present our selection of healthcare products in the Indian market in the year 2014. The variety of products we offer as a trader and supplier includes Pharmaceutical Sprays, Pregabalin Capsules IP, Pharmaceutical Solutions, Torsemide Capsules IP, and various others. As they are used for medicinal purposes, we make sure that our entire product range is obtained from trusted vendors who manufacture the products using the best quality raw materials.

Once the products are procured by us, we also check them according to the prescribed medical standards and only then do we approve them for shipping to the different customers in the market. In addition to offering a product range that is safe to use and has a longer shelf life, we also promise our valued customers a matchless experience in return for nominal rates.
