About Us

Founded in the year 2010, Swastik Synergy Engineering Pvt. Ltd. is an ISO 9001:2008 certified and privately held company. Within a decade of work life, the company has carved a niche for itself as a renowned and reliable manufacturer, trader, and supplier of an efficient range of firefighting products and systems. Having the highest quality standards, our product range, including Inert Gas Fire Extinguishing Systems, Direct Low Pressure Systems, etc has received national and international certifications such as the ISI Mark, CE, UL listing, etc. Carefully designed in strict compliance with the industry-set standards, our fire extinguishing products and systems are recognized in the market for their effectiveness to control any kind of fire-related mishap.

The company is also a service provider that specializes in providing solutions like repair services for the offered products. Offered at the most affordable rates, our products and services meet the demands of customers belonging to industries like software, steel, textiles, fertilizer, telecom, chemicals, pharmaceuticals, oil & gas, hotels, railways, shipping, airlines, and many more. Besides, we keep participating in different national and international trade shows and events with the purpose of promoting our safety equipment in front of top companies and, at the same time, getting to know the latest developments in the industry.
