**INDUSTRIAL ROTARY FEEDER**

## About Us

In the competitive market for feeding and assembly solutions, we, Wibro Feed Tech & Automation Centre Pvt. Ltd. shine bright as a reliable manufacturer and supplier. We offer a broad range of products that are used by fasteners, automotive parts and watch manufacturers due to their super quality and unmatched durability. Our range includes Vibratory Bowl Feeder, Linear Feeder, Rotary Feeder, Stock Feeder, Frequency Controller, Silencer Hoods, Pick and Place Units, etc.

We regularly meet the growing market demand for our products thanks to the backing of our reliable infrastructure and committed staff of experts. We guarantee that the range we offer has undergone quality tests and as per the industry standards. Before sending these products to our clients, our appointed strict quality controllers conduct comprehensive inspections. In addition, we provide services for product fabrication, construction, and installation. Our extensive distribution network makes it possible for us to deliver goods without getting any damages, within the promised period.
