About Us

We, Rucha Engineering Works, are a renowned manufacturer, exporter and supplier of a wide range of products that includes Diesel Oven, Diesel Fired Oven, Liquid Coating Plant, Conveyorised Liquid Coating Plant, Powder Management System (Sieving Machine), Bath Type Powder Curing Oven With Bottom Heating, Overhead Conveyor, Hot Water Generator, etc. to our respected clients. These are used for surface finishing, which is most important in modern day era. Complete solution in surface finishing from pins to planes is provided to our clients.

All these are made using high grade material acquired from reputed vendors such as Motors from ABB, Electrical from Shneider, Sheet in CRC from Jindal, etc. All the material is processed using sheet metal fabrication including Profile Cutting, CNC Cutting, CNC Bending, Roller 10 Feet, Organ Welding and MIG Welding. This helps us carry the production process with maintained standards according to the ISO 9001:2008, as we are certified with it.

Various quality checks are carried at our unit to ensure the conformity to the norms and standards. Our team of inspectors visit the site while commissioning of the plants and important parameters such as fuel consumption, air velocity, TTR, recovery percentage are crosschecked with the clients. Hence our products are high on efficiency, durability and performance. Longer service life of our products is one of the factor that has lead us to huge appreciation from clients.
