About Us

We, Powder Pack Chem, are a prestigious name engaged in the chemical industry, since 2001. Our firm is known as a reliable manufacturer, exporter and trader of Laboratory & Fine Chemicals. Some of our products are Amino Acid, Amino Acetic Acid, Naphthol, Alginic Acid, Barium Acetate, Biphenyl, Calamine, Calcium Fluoride, Potassium Iodide, Mercury, etc. Among our wide ambit of products some are pure substance and some are processed from finest quality ingredients as per international quality norms. The exact chemical properties, longer shelf life, reactivity with varied temperature conditions make our products widely demanded all over the world. For retaining best quality and effectiveness of our offerings, we make sure to provide these to clients in air-tight packaging.

Our Resources

For meeting market demands for various chemicals, we are backed by a team of talented experts. The professionals of our firm hold rich knowledge of chemical compositions and their properties, owing to which we have been able to offer remarkable products. Further, modern machines and facilities are backed by our experts to the employees so as to have speedy working. Our facilities includes a sophisticated R&D wing, which is focused towards experimenting with the offered chemicals so as to bring new innovation in the industry. Moreover, our clients focused policies also combines our efforts in gaining trust of numerous patrons, based in Middle East and South African Countries.

Quality Focus

Serving clients' needs effectively is the main priority for us but for this, we make sure to not compromise with the quality of the products. All the processing stages of offered chemicals like Amino Acid, Amino Acetic Acid, Naphthol, Alginic Acid, Barium Acetate, Biphenyl, Calamine, Calcium Fluoride, Potassium Iodide, Mercury, Mercury Salt, Bismuth Granular etc. takes place as per the guidance of experienced scientists. The quality controllers of our firm undertake tasks of examining the accurate composition, shelf life and effectiveness of entire chemical range so as to assure high quality standards. Further, we have maintained a technologically updated laboratory, wherein our chemicals are gauged.

Our Products

Laboratory Chemical

Calcium Nitrate Tetrahydrate

Sodium Hydroxide Flakes

Sodium Perborate

Iodine

Sodium Selenate

Mercuric Sulphate

Gum Tragacanth

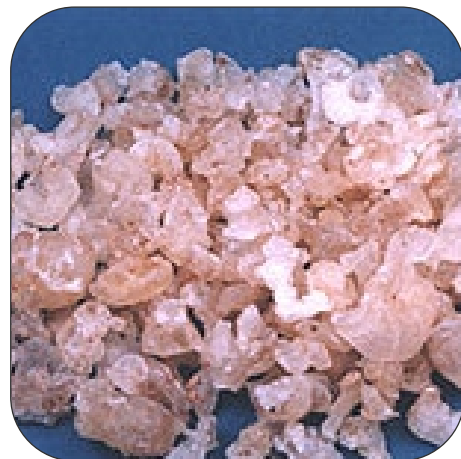

Gum Guar

Gum Ghatti

Gum Locust Bean

Gum Karaya

Balsam Tolu

Balsam Canada

Balsam Peru

Potassium Tetra Borate

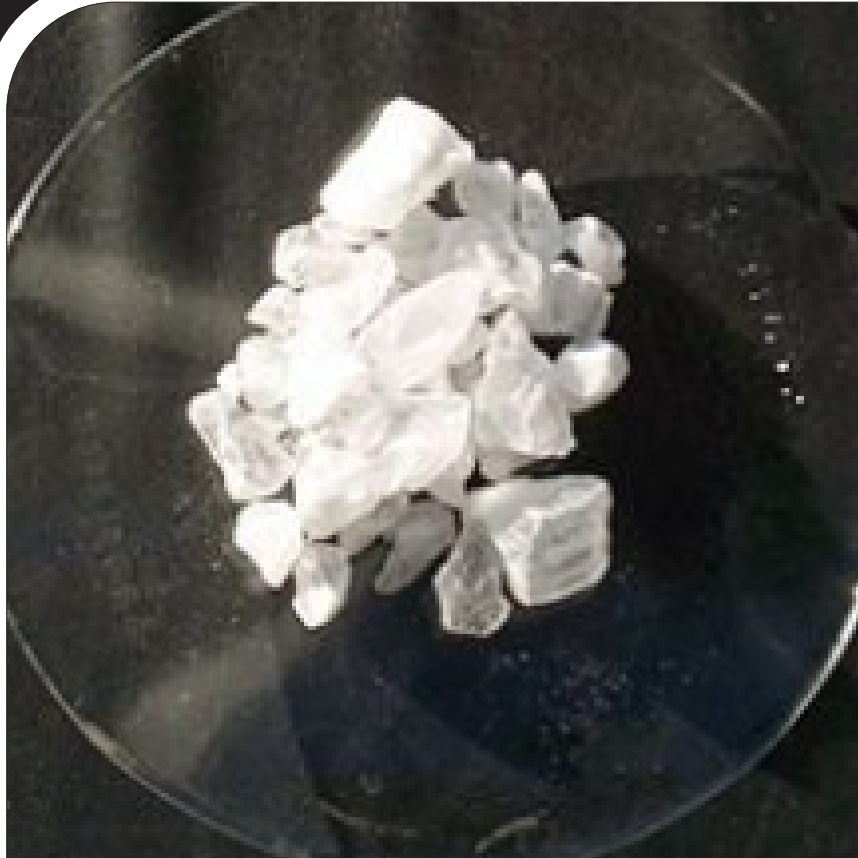

Potassium Sorbate

Potassium Formate
