About Us

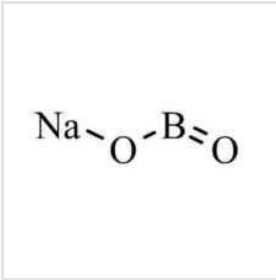

We, Powder Pack Chem, are a prestigious name engaged in the chemical industry, since 2001. Our firm is known as a reliable manufacturer, exporter and trader of Laboratory & Fine Chemicals. Some of our products are Amino Acid, Amino Acetic Acid, Naphthol, Alginic Acid, Barium Acetate, Biphennyl, Calamine, Calcium Fluoride, Potassium Iodide, Mercury, etc. Among our wide ambit of products some are pure substance and some are processed from finest quality ingredients as per international quality norms. The exact chemical properties, longer shelf life, reactivity with varied temperature conditions make our products widely demanded all over the world. For retaining best quality and effectiveness of our offerings, we make sure to provide these to clients in air-tight packaging.

With vast knowledge and rich experience of chemical industry, we, Powder Pack Chem have been able to become a prominent manufacturer, exporter and trader of Laboratory & Fine Chemicals. Our product line include Aluminium Silicate Tri Hydride, Aluminium Stearate, Aluminium Sulphate, Aluminium Potassium Sulphate, Alluminium Sulphate Anhydrous, Potassium Iodide, Naphthol, Alginic Acid, Amino Acetic Acid, Mercury, Mercury Salt, to name a few. Formulated under the supervision of chemical engineers & scientists, our chemicals are globally admired for their perfect composition, longer shelf life and high effectiveness. The remarkable quality of our products make these apt to be used for various pharmaceuticals, FMCG products like soaps & detergent powder etc. Moreover, our special emphasis towards providing consignments on-time have enabled to gain the trust of numerous patrons and become their prime choice at urgency time.

Key Facts

Nature of Business	Manufacturer
Primary Competitive Advantages	laboratory chemicals,
No of Staff	15
Year of Establishment	2001
OEM Service Provided	No
ProductRange	laboratory chemicals,

Our Products

Sodium Metaborate

Sodium Peroxide Granular

Sodium Bisulphate Monohydrate EP

Laboratory Chemical

Sodium Hydroxide Flakes

Sodium Perborate

Calcium Nitrate Tetrahydrate

Ammonium Chloride

Iodine

Mercuric Sulphate

Polyvinyl Alcohol

Sodium Hydroxide Pellets

Sodium Selenate

Starch Potato

Thymol

Acetanilide Powder

ADDRESS

8, Pethe Wadi, Jambli Galli, Off
S.V. Road, Borivali (W), Mumbai,
Maharashtra, India (400092).
