STRONGER

The Indestructible Handle Hammer Technology

WATCH VIDEO

STEEL LOCKING PLATE

locks head to the handle
eliminating loosening or
dislodging

HI-VISIBILITY HEAD

instant identification on
any job site

VULCANIZED RUBBER HANDLE

Absorbs impact &
vibration, reducing user
fatigue

Protects user in the event
of striking an electrical wire

Made from special grade
of ozone resistant rubber
for use in tough outside
environments

Handles on most head sizes
weigh more than the head,
allowing user to apply
double the torque on any
struck surface

DROP FORGED HEAD

with striking
ends induction.
hardened
(50-58 HRC)

SPRING STEEL BARS

9/32" (7.1 mm) dia.
spring steel bars
resist overstrike
without breaking

STEEL REINFORCED LANYARD HOLE
