About Us

We, Shan Engineering Works would like to introduce ourselves as a group of technically qualified people who are engaged in designing and manufacturing Jigs, Fixtures, Special Purpose Machines, Conveyers with Automation, Special Gauges, Gauging Fixtures, etc. In addition, we also supply Automation Spares. We have proficient designers in our team who are experienced in their respective fields and hold hands-on experience with leading automobile and M/c Tool companies in & around Pune. We also introduce ourselves as a leading manufacturer and exporter of Valve Stem, NES Stem, Retainer Ring, Steam Bearing Bush, Taper Pin, Upper Stem, Stem Coupler, etc. The clients can also avail Auto Components, Diesel Engine Components and Engineering Components from us.

The company also has technological expertise in manufacturing the products and have skilled hands to bring out the designs on paper to reality. We have the support of experienced and skilled inspection team to check, inspect and record therefore, assure to deliver the quality expected by our valuable customers. We are well-versed with market demands and are equipped with adequate production facilities. We always keep our customers requirement and urgency as our priority and plan accordingly to attain the maximum customer satisfaction. Generally, we are open to interact with the customers as per which we amend or change the products accordingly with all cost implications with mutual consent of buyers, end-users and designers.
