Modern Sliding Security Screen Doors

Engineered for Homes & Spaces, That Deserve Complete Protection

At Spensa Screens, we specialize in premium screening and security solutions crafted for modern urban homes in Hyderabad. With advanced designs and high-quality materials, we deliver durable, stylish, and hassle-free protection for your doors and windows.

Spensa Screens has founded in 1999, is headquartered in Sai Ram Nagar, Balkampet, Hyderabad Telangana, with an area of 10,000 sq. ft. of modern production Facility.

Spensa Screens is an ISO-certified company — a mark of our commitment to delivering consistent quality and exceptional service to our customers. We are backed by a skilled workforce of 100 plus dedicated professionals.

As a major manufacturer of folding screen doors, folding nets, and related accessories, our company has focused on continuous product research and development since its establishment. Backed by a highly skilled technical team, our products are recognized as industry-leading in performance and are trusted by customers and respected by peers alike.

We offer multiple material options to suit diverse applications and performance needs, including high-grade aluminium, stainless steel in perforated sheet form for enhanced ventilation and aesthetics, solid sheets for complete coverage and strength, and clear heavy-duty PVC for flexible, durable screening solutions.

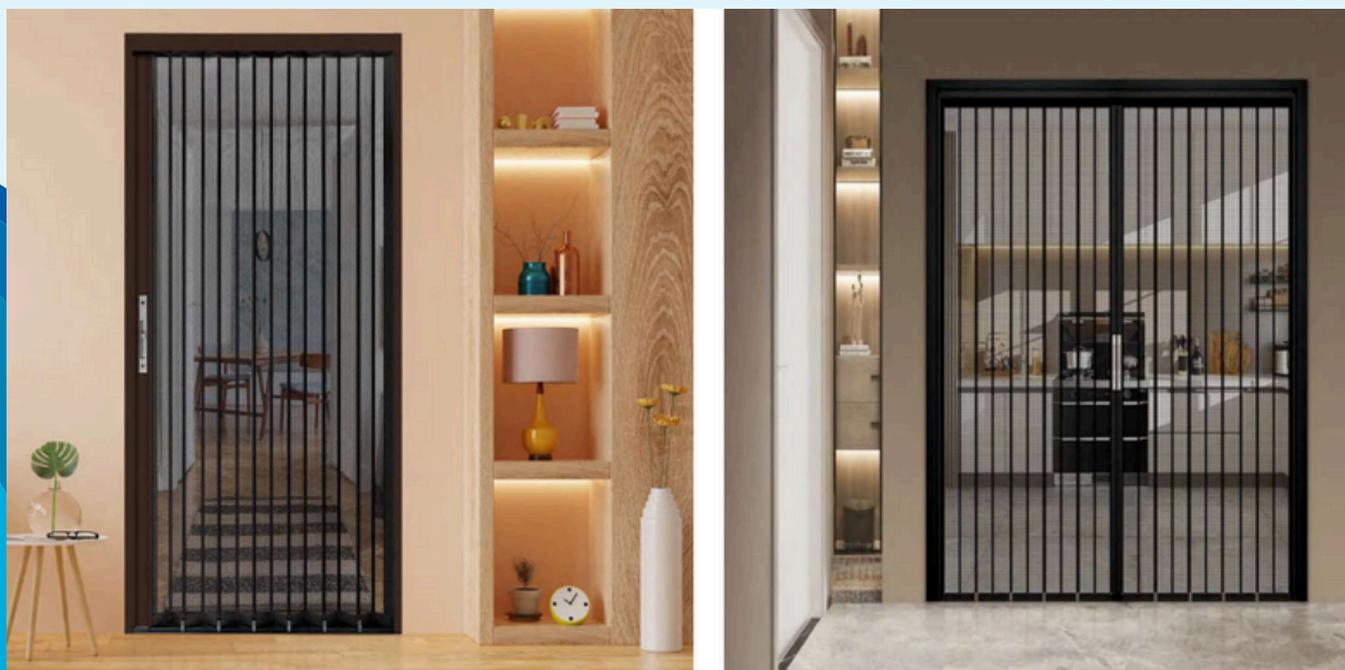

Our goal is to continuously innovate and deliver products and solutions that set benchmarks for quality, reliability, and cutting-edge design.

Built For Indian Homes

- Custom-fit for new or existing aluminum sliding doors.
- Low-profile tracks ensure a neat look without obstructing movement.
- Weather-resistant mesh with corrosion-proof coatings — ideal for Hyderabad's climate.
- Easy to maintain with minimal cleaning.

Your Trusted Partner

- ISO 9001 Certified: Guaranteed quality and consistency.
- Factory-Direct Supply: No middlemen, better value.
- Professional Installation: Trained technicians ensure a perfect fit.
- After-Sales Support: Reliable service and spare parts when you need them.

Engineered to withstand high-pressure wind loads
