About Us

Letin Automations is a major supplier and dealer of heavy-duty and durable residential gates, boom barriers, turnstile gates, etc. Our quality control team works with enthusiasm to make sure that no defective piece is dispatched from the company. We aim to deliver a satisfactory experience to our customers through our reliable, efficient, and user-friendly products. Through this way, we are able to establish ourselves as one of the most prime companies in its domain.

Letin Automations is a prominent supplier and dealer of a high-quality and sturdy range of residential gates, boom barriers, turnstile gates, etc. We have been providing excellent automated security solutions with a trusted vendor network. To win the hearts of the clients, we offer end-to-end support from consultation to maintenance. In addition, we have been offering tailor-made products to the clients according to the needs of the patrons. To deliver a satisfactory experience to every client, we quality check each unit on several parameters.
