About Us

Many dairy companies, experts and more bestow complete trust on our name, G.R. Jain Industries because we are working in the industry since 1962. Another reason to such trust in our enterprise has been our incredibly reliable range of Dairy Processing Machines. Everyday, we support many manufacturers dealing in dairy products with the efficiency and durability of our designed machines. All the Khoya Machine, Cream Separator Machine, Bulk Milk Cooler, etc., are made available to clients, under the brand name, Paras. All of our machines are quality tested, before they are sent out for delivery.

Conducting such tests, we assure impressive operational efficiency of our machines along with confirming their compliance to the international standards. Being a responsible manufacturer, third party exporter and wholesaler, we deliver our machines in bulk in a punctual manner. Our company has the support of not just a huge clientele in the competitive market, but we are also constantly helped by many experts of the industry and our sister concern, Nihal Industries.
