About Us

Prism Industries Private Limited is a fastest growing, medium size privately owned firm which is based in Khambhat, Gujarat (India). The company was established in the year 1993 and currently, indulged into manufacturing, importing, exporting and supplying Pharmaceutical Intermediates and Active Pharmaceutical Ingredients (APIs), Quinine Sulphate, Quinine Bisulphate. We are an ISO 14001:2015, ISO 45001: 2018, ISO 9001:2015, ISO 22000:2005, GMP & GLP certified company.

With the mission "Quality Designed for Excellence", we are providing effective & finest quality API's & Intermediates to the healthcare & chemical sectors thus, satisfying our valuable clients. With the optimum usage of our R&D team and innovative technologies deployed in our infrastructure, we are consistently developing advance API's. The organization is working with the clear objectives of Cost Effectiveness, High Commitment Level and fruitful Strategic Alliances for long term sustainable growth. We have well developed facilities to produce API's and Intermediates with separate production unit for each segment where global standards are followed. Equipped with specialized equipment, all the production stages are closely monitored by the quality controlling department to meet high standards of the market. It has all the required regulatory, technical and synthesis capabilities which are required for high value low volume and molecules along with the support of an advance R&D and Quality Control facilities.

Key Facts

No of Staff	200
Year of Establishment	1993
OEM Service Provided	No

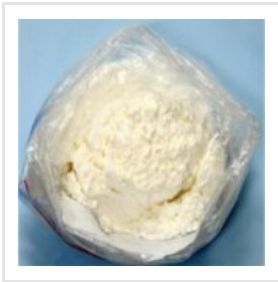

Our Products

Quinidine Sulphate

Digoxin

Hyoscine Hydro Bromide

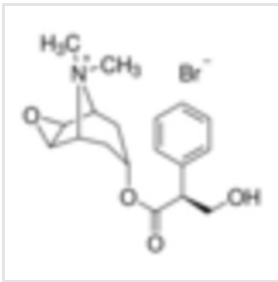

Methylcobalamine

Artemether

Artesunate

Hyoscine Methyl Bromide

Calcium Sennoside

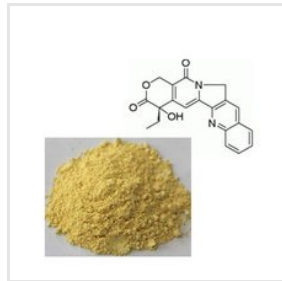

Yohimbine Hydrochloride

II Arteether

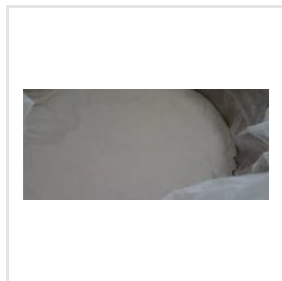

Hyoscine Butylbromide

Camptothecin

Cimetropium Bromide

Quinidine Base

Quinine Sulphate

Hyoscine Butyl Bromide
